

## N432 Clinical Cultural Report and grading rubric

### Objectives:

- Describe cultural and ethnic characteristics influencing health care
- Identify factors that could affect the interaction of the nurse and the client in terms of culturally different health care values
- Discuss ways to provide culturally sensitive care in the Maternal/child setting

### Assignment

- Choose a culture to research you can observe in the local community. Work with your clinical group to have each person pick a different culture.
- Use your book, the internet, and other scholarly resources to research the health beliefs and practices of the culture you choose.
- Write a 2-page report using APA format
- Submit the report to Turnitin
- Submit the report including references used in APA format to the drop box by the assigned date/time in your syllabus.

### Guidance for your report

1. Description of the culture
  - Accurately describe the local prevalence of people in this ethnic group/culture
2. Discuss the core values of the culture chosen according to the following criteria.
  - Religion
    - Describe the religious beliefs of the ethnic group/culture you've chosen
    - Identify how these relate to health care, i.e. are male providers OK for female patients?
  - Healing beliefs and practices
    - How is pain and suffering viewed by people of this culture?
    - Are there any special practices related to labor, delivery, and/or the postpartum period?
  - Family life
    - What is the common structure of the family in this culture?
    - What is the role of elders? Live with the family? Respected/not respected?
  - Communication
    - What is the norm for this culture? Are females allowed to speak, or do their husbands speak for them?
    - Verbal and nonverbal communication norms
  - Diet
    - Describe the significance of food for members of this culture. Are certain foods eaten after the birth of a child?
    - How could culturally specific diet requirements impact hospitalization?
3. Description of core values
  - Discuss implications the above core values have on healthcare relating to the childbearing experience.
4. 3 tips/suggestions/interventions your fellow students can use when working with patients of the culture you chose.

N432 Clinical Culture Report grading rubric

Student name:

	20 points	10 points	0 points	Points
