### Simulation

<b>Scenario</b>	In this virtual simulation, you cared for Ryan Martinez. The goal was to complete a focused musculoskeletal and neurological assessment. Review your results below to determine how your performance aligned with the goals of this simulation.	
<b>Overall Performance</b>	You did not meet the requirements to complete this virtual health assessment scenario. Remediation is recommended before attempting this scenario again.	<b>Score: 41.4%</b>

**Essential Actions**

**Required actions - 9 of 18 correctly selected**

You did not demonstrate a basic understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions:

communicating with the client to elicit additional information.  
Spend time reviewing:

- Inspecting gait
- Inspecting range of motion and muscle strength of the lower extremities
- Inspecting range of motion of the upper extremities
- Inspecting symmetry of the lower extremities
- Inspecting symmetry of the upper extremities
- Palpating grip strength of the upper extremities
- Palpating skin temperature of the lower extremities
- Palpating skin temperature of the upper extremities
- When to sanitize hands when completing client care

**Interactive actions - 0 of 2 performed correctly**

You did not demonstrate a basic understanding of assessment techniques within the focused health assessment based on this client's health status.

Spend time reviewing the following assessment techniques:

- Palpating skin temperature of the lower extremities
- Palpating skin temperature of the upper extremities

**Expected/unexpected findings - 0 of 8 correctly identified**

You did not demonstrate a basic understanding of the expected and unexpected findings from the focused health assessment based on this client's health status.

Spend time reviewing the expected and unexpected findings of the following:

- Inspecting gait
- Inspecting range of motion and muscle strength of the lower extremities
- Inspecting range of motion of the upper extremities
- Inspecting symmetry of the lower extremities
- Inspecting symmetry of the upper extremities
- Palpating grip strength
- Palpating skin temperature of the lower extremities
- Palpating skin temperature of the upper extremities

**Neutral Actions**

**Neutral actions - 1 selected**

Neutral actions do not help or harm the client.

- *Only* questions specifically related to the focused musculoskeletal and neurological assessment are necessary.
- *Only* steps specifically related to the focused musculoskeletal and neurological assessment are necessary.

**Actions of Concern****Order violations - 1 selected**

Order violations occur when you move through the sequence of body areas in the incorrect order; move through the assessment techniques of inspection, palpation, and auscultation in the incorrect order; fail to place or remove gloves when required; or fail to provide for privacy or safety considerations before initiating or concluding a health assessment scenario.
