Time Use And Score

	Date	Time
Virtual Application: Ryan Martinez - Simulation	11/18/2025	12 min

Simulation

Scenario	In this virtual simulation, you cared for Ryan Martinez. The goal was to complete a focused musculoskeletal and neurological assessment. Review your results below to determine how your performance aligned with the goals of this simulation.	
Overall Performance	You met the requirements to complete this virtual health assessment scenario.	Score: 98.4%
Essential Actions	<p>Required actions - 18 of 18 correctly selected</p> <p>Congratulations! You have demonstrated a thorough understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions: communicating with the client to elicit additional information, inspecting the lower extremities, inspecting the upper extremities, palpating the lower extremities, palpating the upper extremities, providing infection control and safety.</p> <p>Interactive actions - 1 of 2 performed correctly</p> <p>You did not demonstrate a basic understanding of assessment techniques within the focused health assessment based on this client's health status. Spend time reviewing the following assessment techniques:</p> <ul style="list-style-type: none"> Palpating skin temperature of the upper extremities 	

Essential Actions	<p>Expected/unexpected findings - 8 of 8 correctly identified</p> <p>You demonstrated a thorough understanding of the expected and unexpected findings from the focused health assessment based on this client's health status. You demonstrated an understanding of the expected and unexpected findings of the following: inspecting the lower extremities, inspecting the upper extremities, palpating the lower extremities, palpating the upper extremities.</p>
Neutral Actions	<p>Neutral actions - 0 selected</p> <p>Neutral actions do not help or harm the client.</p> <ul style="list-style-type: none"> • <i>Only</i> questions specifically related to the focused musculoskeletal and neurological assessment are necessary. • <i>Only</i> steps specifically related to the focused musculoskeletal and neurological assessment are necessary.
Actions of Concern	<p>Order violations - 0 selected</p> <p>Order violations occur when you move through the sequence of body areas in the incorrect order; move through the assessment techniques of inspection, palpation, and auscultation in the incorrect order; fail to place or remove gloves when required; or fail to provide for privacy or safety considerations before initiating or concluding a health assessment scenario.</p>
