Time Use And Score

	Date	Time
Virtual Application: Ryan Martinez - Simulation	11/18/2025	21 min

Simulation

Scenario	In this virtual simulation, you cared for Ryan Martinez. The goal was to complete a focused musculoskeletal and neurological assessment. Review your results below to determine how your performance aligned with the goals of this simulation.	
Overall Performance	You did not meet the requirements to complete this virtual health assessment scenario. Remediation is recommended before attempting this scenario again.	Score: 60.2%
Essential Actions	Required actions - 12 of 18 correctly selected You did not demonstrate a basic understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions: communicating with the client to elicit additional information. Spend time reviewing: - Inspecting gait - Inspecting symmetry of the lower extremities - Inspecting symmetry of the upper extremities - Palpating skin temperature of the lower extremities - Palpating skin temperature of the upper extremities - When to sanitize hands when completing client care	

Essential Actions	Interactive actions - 0 of 2 performed correctly You did not demonstrate a basic understanding of assessment techniques within the focused health assessment based on this client's health status. Spend time reviewing the following assessment techniques: • Palpating skin temperature of the lower extremities • Palpating skin temperature of the upper extremities Expected/unexpected findings - 3 of 8 correctly identified You did not demonstrate a basic understanding of the expected and unexpected findings from the focused health assessment based on this client's health status. Spend time reviewing the expected and unexpected findings of the following: • Inspecting gait • Inspecting symmetry of the lower extremities • Inspecting symmetry of the upper extremities • Palpating skin temperature of the lower extremities • Palpating skin temperature of the upper extremities
Neutral Actions	Neutral actions - 4 selected Neutral actions do not help or harm the client. • <i>Only</i> questions specifically related to the focused musculoskeletal and neurological assessment are necessary. • <i>Only</i> steps specifically related to the focused musculoskeletal and neurological assessment are necessary.
Actions of Concern	Order violations - 1 selected Order violations occur when you move through the sequence of body areas in the incorrect order; move through the assessment techniques of inspection, palpation, and auscultation in the incorrect order; fail to place or remove gloves when required; or fail to provide for privacy or safety considerations before initiating or concluding a health assessment scenario.
