

Electronic Fetal Monitoring Assignment and grading criteria

1. Go to the Fetal monitoring website: <http://www.ob-efm.com/2424.htm>
2. Go to the Homepage on the left side of the screen.
3. First, click on the EFM basics tab.
4. Go to and complete the program on the **“Physiological basis of Fetal Heart Monitoring”**.
5. Then go to the self- guided tutorial and do the two programs: **“Basic Pattern Recognition”** and **“Basic FHT analysis.”**
6. When you have completed these three programs/tutorials, complete case studies 1-5.
7. On completion of the case studies, place screen shots of results in the dropbox on Edvance.
8. In order to get points for this assignment, students must achieve a score of 80% on each of the case studies.

Self Guided Tutorial

This Self Guided Tutorial are set to augment EFM Basics. Once finished with this tutorial move on to the practice quizzes and and case studies to solidify your understanding.
