

# Individual Performance Profile

## Anatomy and Physiology 2009 Online Practice

Individual Name: <b>CANDY LEWIS</b>	Individual Score: <b>65.7%</b>
Student Number: <b>0110920</b>	Practice Time: <b>32 min</b>
Institution: <b>Lakeview CON</b>	
Program Type: <b>BSN</b>	
Test Date: <b>2/3/2020</b>	
# of Questions: <b>70</b>	

<b>Individual Performance in the Major Content Areas</b>			<b>Individual Score (% Correct)</b>										
<b>Sub-Scale</b>	<b># Items</b>	<b>Individual Score</b>	1	10	20	30	40	50	60	70	80	90	100
Fluids and Electrolytes/Acid-Base Balance	7	85.7%											▲
Immunological System	5	80.0%										▲	
Integumentary System	5	40.0%					▲						
Hematological System	5	40.0%					▲						
Cardiovascular System	7	71.4%									▲		
Respiratory System	6	66.7%									▲		
Urinary System	5	40.0%					▲						
Gastrointestinal System	8	87.5%											▲
Endocrine System	7	85.7%											▲
Reproductive System	5	20.0%			▲								
Sensory and Neurological System	5	80.0%										▲	
Musculoskeletal System	5	60.0%									▲		

## Topics To Review

### Fluids and Electrolytes/Acid-Base Balance (1 item)

Fluids and Electrolytes: Effect of Aldosterone

### Immunological System (3 items)

Immunological System: Cell Function

### Integumentary System (3 items)

Integumentary System: Functions of the Dermis

Integumentary System: Types of Wound Healing

Integumentary System: Wound Healing

### Hematological System (2 items)

Hematological System: Blood Type Compatibility

Hematological System: Composition of Erythrocytes

Hematological System: Role of Platelets

### Cardiovascular System (2 items)

Cardiovascular System: Blood Pressure Regulation

Cardiovascular System: Role of Cardiac Valves

### Respiratory System (3 items)

Respiratory System: Control of Involuntary Respirations

Respiratory System: Function of Surfactant

### Urinary System (1 item)

Urinary System: Average Length of Female Urethra

Urinary System: Capacity of a Healthy Adult Bladder

Urinary System: Structure of the Nephron

### Gastrointestinal System (1 item)

Gastrointestinal System: Absorption of Iron and Bile Salts

### Endocrine System (4 items)

Endocrine System: Hormonal Response to Stress

### Reproductive System (1 item)

Reproductive System: Event of Ovulation

Reproductive System: Function of the Prostate Gland

Reproductive System: Process of Meiosis

Reproductive System: Site of Sperm Maturation

### Sensory and Neurological System (2 items)

Sensory and Neurological System: Stimulation of the Autonomic Nervous System

### Musculoskeletal System

Musculoskeletal System: Appendicular Skeleton

Musculoskeletal System: Joint Movement

## Outcomes

<b>Anatomy and Physiology</b>	<b>No of Items</b>	<b>Individual Score</b>	<b>Description</b>
Anatomy	14	71.4%	Anatomy is the study of the structure and organization of the organs and body systems that make up the human body.
Physiology	56	64.3%	Physiology is the study of how the organs and organ systems function within the human body.

# Score Explanation and Interpretation

## Individual Performance Profile

**Individual Score:** This score is determined by dividing the number of questions answered correctly on the assessment (or within a designated section) by the number of questions on the assessment (or within a designated section).

$$\frac{\text{Number of questions answered correctly}}{\text{Total number of questions on the assessment}} = \frac{\%}{\text{correct}}$$

For example:  $\frac{60}{70} = 85.7\%$

**NA:** Data not available

**Topics to Review:** Based on the questions missed on this assessment, a listing of content areas and topics to review is provided.
