| Teamwork and Collaboration | 5 | 80.0% | | | | | | | | | ▲ | | |

Topics To Review

- Teamwork and Collaboration (1 item)
- Interprofessional Teams (1 item)

Client Care: Assigning Tasks to an RN

Outcomes

| Nursing Process | No of Items | Individual Score | Description |
|--|-------------|------------------|---|
| RN Planning | 2 | 100.0% | The planning step of the nursing process involves the nurse's ability to make decisions and problem solve. The nurse uses a client's assessment data and nursing diagnoses to develop measurable client goals/outcomes and identify nursing interventions. The nurse uses evidenced based practice to set client goals, establish priorities of care, and identify nursing interventions to assist the client to achieve his goals. |
| RN Implementation/Therapeutic Nursing Intervention | 3 | 66.7% | The implementation step of the nursing process involves the nurse's ability to apply nursing knowledge to implement interventions to assist a client to promote, maintain, or restore his health. The nurse uses problem-solving skills, clinical judgment, and critical thinking when using interpersonal and technical skills to provide client care. During this step the nurse will also delegate and supervise care and document the care and the client's response. |

| Priority Setting | No of Items | Individual Score | Description |
|-------------------------|--------------------|-------------------------|--|
| | 1 | 100.0% | Ability to demonstrate nursing judgment in making decisions about priority responses to a client problem. Also includes establishing priorities regarding the sequence of care to be provided to multiple clients. |

| Thinking Skills | No of Items | Individual Score | Description |
|--|--------------------|-------------------------|--|
| Clinical Judgment/Critical Thinking in Nursing | 5 | 80.0% | Ability to use critical thinking skills (interpretation, analysis, evaluation, inference, and explanation) to make a clinical judgment regarding a posed clinical problem. Includes cognitive abilities of application and analysis. |

| NCLEX® | No of Items | Individual Score | Description |
|-----------------------|--------------------|-------------------------|--|
| RN Management of Care | 5 | 80.0% | The nurse coordinates, supervises and/or collaborates with members of the health care to provide an environment that is cost-effective and safe for clients. |

| Clinical Areas | No of Items | Individual Score | Description |
|-----------------------|--------------------|-------------------------|--|
| Leadership | 5 | 80.0% | Ability to manage the care of a caseload of clients and nursing care team while using principles of management and supervision. Topics include leadership skills (ie: interdisciplinary collaboration, advocacy, prioritization, delegation), performance improvement, continuity of client care, and principles of case management while ensuring safe client care and efficient utilization of human and material resources. |

| QSEN | No of Items | Individual Score | Description |
|----------------------------|--------------------|-------------------------|--|
| Teamwork and Collaboration | 5 | 80.0% | The delivery of client care in partnership with multidisciplinary members of the health care team, to achieve continuity of care and positive client outcomes. |

| NLN Competency | No of Items | Individual Score | Description |
|-----------------------|--------------------|-------------------------|---|
| Nursing Judgment | 3 | 100.0% | Nursing judgment involves the use of critical thinking and decision making skills when making clinical judgments that promote safe, quality patient care. |
| Professional Identity | 2 | 50.0% | Professional identity reflects the professional development of the nurse as a member and leader of the health care team who promotes relationship-centered care, and whose practice reflects integrity and caring while following ethical and legal guidelines. |

| BSN Essentials | No of Items | Individual Score | Description |
|---|--------------------|-------------------------|--|
| Basic Organization and Systems Leadership for Quality Care and Patient Safety | 2 | 50.0% | The need for nurses to be able to understand power relationships and use decision-making and leadership skills to promote safe practice and quality improvement within health care systems. |
| Interprofessional Communication and Collaboration | 2 | 100.0% | The need for nurses to be able to function as a member of the healthcare team while promoting an environment that supports interprofessional communication and collaboration with the goal of providing patient-centered care. |
| Professionalism and Professional Values | 1 | 100.0% | The need for nurses to be able to practice nursing in a professional manner while providing patient-centered care that is caring, respects diversity, and is governed by legal and ethical tenets. |
