

Individual Performance Profile

RN Learning System Medical-Surgical: Endocrine Practice Quiz

Individual Name: **JENNIFER M COLBERT**

Individual Score:

95.0%

Student Number:

Practice Time:

23 min

Institution: **Lakeview CON**

Program Type: **BSN**

Test Date: **7/18/2020**

of Questions: **20**

Individual Performance in the Major Content Areas

	#	Individual	Individual Score (% Correct)											
Sub-Scale	Items	Score	1	10	20	30	40	50	60	70	80	90	100	
Medical-Surgical: Endocrine	20	95.0%											▲	

Topics To Review

Medical-Surgical: Endocrine (1 item)

Diabetes Mellitus Management: Pathophysiology of Type 2 Diabetes Mellitus

Outcomes

Nursing Process	No of Items	Individual Score	Description
Assessment (RN 2013)	10	100.0%	Ability to apply nursing knowledge to the systematic collection of data about the client's present health status in order to identify the client's needs and to identify appropriate assessments to be performed based on client findings. Also includes the ability to accurately collect client data throughout the assessment process (client history, client interview, vital sign and hemodynamic measurements, physical assessments) and to appropriately recognize the need for assessment prior to intervention.
Analysis/Diagnosis (RN 2013)	1	100.0%	Ability to analyze collected data and to reach an appropriate nursing judgment about the client's health status and coping mechanisms, specifically recognizing data indicating a health problem/risk and identifying the client's needs for health intervention. Also includes the ability to formulate appropriate nursing diagnoses/collaborative problems based on identified client needs.
Planning (RN 2013)	3	100.0%	Ability to apply nursing knowledge to the development of an appropriate plan of care for clients with specific health alterations or needs for health promotion/maintenance. Includes the ability to establish priorities of care, effectively delegate client care, and set appropriate client goals/outcomes in order to ensure clients' needs are met.
Implementation/Therapeutic Nursing Intervention (RN 2013)	4	100.0%	Ability to select/implement appropriate interventions (e.g., technical skill, client education, communication response) based on nursing knowledge, priorities of care, and planned goals/outcomes in order to promote, maintain, or restore a client's health. Also includes the ability to appropriately respond to an unplanned event (e.g., observation of unsafe practice, change in client status) or life-threatening situation and to routinely take measures to minimize a client's risk.
Evaluation (RN 2013)	2	50.0%	Ability to evaluate a client's response to nursing interventions and to reach a nursing judgment regarding the extent to which goals and outcomes have been met. Also includes the ability to assess client/staff understanding of instruction, the effectiveness of intervention, and the recognition of a need for further intervention.

Thinking Skills	No of Items	Individual Score	Description
Foundational Thinking in Nursing	1	100.0%	Ability to recall and comprehend information and concepts foundational to quality nursing practice.
Clinical Judgment/Critical Thinking in Nursing	19	94.7%	Ability to use critical thinking skills (interpretation, analysis, evaluation, inference, and explanation) to make a clinical judgment regarding a posed clinical problem. Includes cognitive abilities of application and analysis.

NCLEX®	No of Items	Individual Score	Description
Health Promotion and Maintenance RN 2013	2	100.0%	Providing and directing nursing care that encourages prevention and early detection of illness, as well as the promotion of health.
Reduction of Risk Potential RN 2013	4	100.0%	Providing nursing care that decreases the risk of clients developing health-related complications.
Physiological Adaptation RN 2013	14	92.9%	Providing and directing nursing care for clients experiencing physical illness.

QSEN	No of Items	Individual Score	Description
Safety	1	100.0%	The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.
Patient-Centered Care	3	100.0%	The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values.
Evidence Based Practice	15	93.3%	The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.
Teamwork and Collaboration	1	100.0%	The delivery of client care in partnership with multidisciplinary members of the health care team, to achieve continuity of care and positive client outcomes.
