

Reason for visit: weakness/dizziness

she had a sister who had MI and is in ICU in Indy. She went to see her for a week and could not have a place to sleep - she said she couldn't afford a hotel. Slept in waiting room chairs. She messed up her back. She had to be hospitalized over thing

on psych unit due to depression over sister's illness. She has a reason to feel like she does so let it run its course

Dx: Major Depression

RBC: 4.35 L
Hemoglobin 12.9 L

RDW: 15.4 H

Monocytes: 8.5 H

TSH 8.49 H

C

CC: Threatening, mood swings, agitation, defiance, refusal to follow directions

Hx: Brought into St. Mary's ER from Webster-Centrell Hall on 8/14/11 after he was SASS screened and found to be appropriate for admission. The pt apparently has not been himself. He has been extremely moody, angry, hostile, agitated, threatening, blowing up easily, not able to follow directions. He has been very temperamental, threatening to hurt others, threatening to hurt himself. He has been escalating. Attempts to redirect but it has been futile. He has been not himself. He accuses his peers "making fun of him, picking on him"

Prior: followed up as an outpatient as well as inpatient basis

Family Hx: + for affective disorder

Social Hx: removed from home, difficulty in school, home, following directions, mult. behavior problems, defiance NO alcohol/drug abuse
prior med hx: @ St. Mary's Hospital in Aug. 11

I Mood disorder, NOS, ADHD, ODD, ICD possible PTSD

II none

III none

IV ward of DCFS, living in group home @ Webster-Centrell Hall,
V 20 victim of abuse and neglect, mult. group homes, lived in foster homes, mult. psychiatric hospitalizations

Abilify 10mg@1200 } depression, sad view
Abilify 30mg@800 }
Cogentin 0.5mg BID — for shaking, tremors
Lithium tab 300mg@0800 } mood swings
Lithium tab 600mg@HS }

Pt states he is here because he was banging his head on the wall and was threatening others. Pt reports that his father gave up custody/guardianship of him and his brothers one month ago. Pt reports that staff and peers at Webster were getting to him and he just snapped. Pt reports that on occasion he will see his deceased grandmother walking towards him and then she will disappear about halfway to him. Pt reports being depressed for about 3 mo. after his grandmother passed away. Pt admits to being physically violent towards himself only though he will be verbally violent towards others. Pt appears depressed/sad, quiet.
