

JOIN US FOR THE 3RD ANNUAL

EVIDENCE

BASED PRACTICE NURSING CONFERENCE

TUESDAY, DECEMBER 6, 2011 | 12 – 4:30 P.M. | POLLARD AUDITORIUM, THE FORUM AT CARLE

This conference provides meaningful examples of how evidence based nursing practices can improve patient outcomes.

CONFERENCE OBJECTIVES:

1. Recognize how evidence based practice directly affects patient outcomes
2. Identify the process of integrating evidence based practice into your care delivery
3. Identify similarities and differences between quality improvement and research.

AUDIENCE:

Nursing students and practicing nurses regardless of education level or discipline.

FEATURED SPEAKER

Wendy Tuzik Micek, RN, PhD is the Magnet director for Advocate Christ Medical Center and Advocate Hope Children's Hospital. In addition to her Magnet responsibilities she is responsible for directing and growing the nursing research program at the Medical Center and facilitates the Advocate Healthcare Nursing Research Council which supports nine Advocate hospitals. Wendy has practiced in a variety of settings; she presents and consults widely and has been involved in several research studies.

Topic - Creating a Culture of Nursing Inquiry in a Clinical Setting
