

## Support Plan Addendum/Individual Abuse Prevention Plan

Each person receiving services through Lifeworks has a Support Plan Addendum (SPA) and Individual Abuse Prevention Plan (IAPP). These documents are required for anyone receiving a 245D service in Minnesota and are used as guides on how best to support the individual. The two documents are combined into one called "SPA/IAPP".

As an employee of Lifeworks Services, it is your responsibility to review and acknowledge the person's SPA/IAPP upon hire, annually, and each time there are changes and/or updates to the document.

If you do not already have the most recent version of the SPA/IAPP please ask the Authorized Representative (the person you report to) for a copy to review. In STAR Services, you must acknowledge that you have reviewed the document and are capable of working with the individual.

The SPA/IAPP contains protected health information about the individual supported and must not be shared with anyone who does not provide supported services for the person.

If you have questions about the SPA/IAPP, please reach out to the Authorized Representative or your Lifeworks Service Coordinator.

"By signing below, I acknowledge that I have reviewed the SPA/IAPP for the person(s) I work with who receive services from Lifeworks Services. I understand that when there are updates to the person's SPA/IAPP, I will need to review the updates before providing support services for the person. If I have questions about the person's SPA/IAPP, I will contact the supported individual's Authorized Representative (the person I report to)."

## 2024-2025 Annual Training: Mandated Reporting – Vulnerable Adults

- ✓ 1. Since I don't like my coworker Valentina, who is always calling in to have her shifts covered, I make a phone call to the MAARC saying she has been taking money from a person we support, Greg. He forgot his wallet on the bus last week and it wasn't returned but it would be easy to believe he didn't leave it on the bus and, instead, Valentina took it before he left for the bus. Which statement is accurate?
- This is an example of a maltreatment report made in bad faith.
  - This is an example of a maltreatment report made in good faith.
- ✓ 2. What is the definition of a vulnerable adult? (Check all that apply)
- A person that is 18 years of age or older, who receives services from a licensed provider
  - A person that is 18 years of age or older who lives in a licensed program
  - A person who has a physical, mental, or emotional need that impairs the person's ability to adequately provide for their own care or ability to protect self from maltreatment
  - All of the above
- ✓ 3. True or False: Mandated Reporters must report any known or suspected abuse, neglect, or financial exploitation of a vulnerable adult.
- True
  - False
- ✓ 4. Talisha has informed you that her upper thighs hurt. Because it is summer and she has shorts on, she shows you that she has bruises on her upper thighs. It appears to you that she has significant purple bruises on the inside of both of her upper thighs. You ask her what happened, and she says she doesn't want to talk about it. She just needs to know if there is anything you can do to help make the bruise look less noticeable. Is this reportable maltreatment?
- No, because you didn't see how the bruises occurred.
  - Yes. While you didn't actually see how the bruises occurred, there is physical evidence that something happened. Additionally, Talisha has said that her upper thighs hurt.

✓ 5. In my job, if I suspect maltreatment, I may need to make a maltreatment report about any of the following people:

- My co-worker
- My friend
- My supervisor
- A person I support
- All of the above

## 2024-2025 Annual Training: Mandated Reporting - Minors

- ✓ 1. You've assisted Olivia in the bathroom to help her sit on the toilet. Her plan of care includes that staff are supposed to remain in the bathroom with her at all times. As you are fastening the positioning straps for Olivia, you hear another housemate call for you. You leave to help her housemate and when you go back to check on Olivia you see she has slid off the toilet, is laying on the ground and appears to have a bump on the back of her head. You see the straps have come completely undone. You were rushed and didn't properly secure them. Should this be reported as maltreatment?
- Yes – While it wasn't intentional, the straps were not correctly put on, Olivia has an injury that needs to be checked out and she is supposed to have staff with her in the bathroom at all times.
  - No – She just has a small bump and you think she'll be fine, it was just an accident..
- ✓ 2. What of the following statements is correct?
- I must report suspected maltreatment only if I have evidence
  - I must report maltreatment in good faith
  - If I report, the information is considered public information and anyone can access it, including my name as the reporter
  - If I don't report suspected maltreatment, I can't be held liable
- ✓ 3. After orally reporting maltreatment of a minor, you must follow up with a **written** report within \_\_\_\_\_.
- 12 hours
  - 72 hours (not including weekends and holidays)
  - 96 hours (not including weekends and holidays)
  - There is no time limit as long as the maltreatment gets reported.
- ✓ 4. Where are two places to report maltreatment of a minor? (**Check two**)
- Internally, to my supervisor
  - The appropriate law enforcement agency (police or sheriff)
  - The MAARC - Minnesota Adult Abuse Reporting Center
  - The local welfare agency, the County Child Protection
- ✓ 5. You support twins Jayden and Jordan who are 7 years old and usually get along well. While you are at a playground they start fighting over the only open swing. When Jordan pulls the swing out of Jayden's hands the chain hits Jayden on the face and he now has a cut on his temple. You wash the area and apply antibiotic

ointment to the cut. You were within the appropriate supervision distance of Jayden and Jordan, you just couldn't intervene quickly enough to prevent the injury. Should this be reported as maltreatment?

- Yes – Jayden was hurt so you feel it should be reported as maltreatment.
- No – You were providing the correct supervision level and an injury caused by another child is not necessarily maltreatment. While it doesn't need to be reported as maltreatment you probably should fill out an incident report.

## 2024-2025 Annual Training: Sexual Violence

- ✓ 1. True or False: Sexual abuse and sexual violence are exactly the same.
- True  
 False
- ✓ 2. Which of the following could be considered sexual violence?
