Born to Reproduce

March 31, 2019

1. Throughout physical reproduction, we have babies thus making our parents grandparents and our grandparent's great grandparents and so on and so forth. God wants our spiritual reproduction to be the same meaning it grows and multiples. Therefore, we grow in our faith and our fruits develop and mature.
2. Trotman had seen a young man in need of a ride, picked him up, and on the way the man had used God's name in vain. Later Trotman realized he had previously witnessed to this man just a year before and realized how vital it is to spend time with new believers.
3. God isn't necessarily the overseer of new Christians rather that is what we are for.
4. Trotman was majoring in it.
5. As we see, many of Paul's letters were follow-ups with the new believers teaching us that we should too follow up and take care of new believers.
6. There could be endless potential.
7. Someone who takes care of a new believer by giving him spiritual food provided by God.
8. "How many persons do you know by name today who were won to Christ by you and are living for him?"
9. It is in many ways a seed being planted in our hearts and will speak to us when necessary.
10. Sin, fear of man, lack of a spiritual purpose in life, busyness, and Christians do important jobs but not the most important.
11. Gossip, lying, no communion with Christ, distrust, busyness, and not doing what we know we should.
12. "Are you producing?" "Why not?"
13. "Load your heart with this precious Seed. You will find that God will direct you to those who you can lead to Christ."  
"Regardless of how much you know intellectually, you can be a spiritual parent."  
"You don't make God the overseer, He makes you the overseer"  
"When you help your man, he sees how it's done and then he mimics you."
14. I know I am called to build relationships, share the gospel, and see those relationships out. I know how hard it can be to continue a walk of faith, so I'm realizing how important it is to walk with new believers and share my testimony to help them grow where they can be that for someone else down the road. I need to work on this and be willing to build relationships that God has given to me.
