

**RIVER PLACE**  
**STAFF MEETING SUMMARY**

**Subject:** River Place Staff Meeting

**Date:** June 5th, 2025

**Time:** 1:00-3:30PM

- ❖ **Safety/Health Review** –
  - With summer months upon us we need to remember:
    - To apply sunscreen
    - To apply bug spray
    - To stay hydrated
- ❖ **Nursing Inservice** – Reviewed by Henrietta and attached on STAR
- ❖ *Emergency use of manual restraint/ Therapeutic Intervention*
- ❖ *Henrietta demonstrated emergency holds*
- ❖ **Program policies (STAR)** – Reviewed by Kelsey and attached on STAR
  - Behavior Intervention and reporting *See attached document*
  - Avoiding Power Struggles *Lesson on STAR*
  - De-escalation Techniques *Lesson on STAR*
- ❖ **Emergency Procedures** – June: Health Emergency – (Ashley responsible)

**Meeting Review:**

- A. **June Calendar Reviewed** – Reminder to turn in requests off by the 10<sup>th</sup> of the month prior. Calendars will be released on the 15<sup>th</sup> of the month. After the 10<sup>th</sup> of the month, staff will be responsible for filling their own shifts. (see attached calendars)
- B. **Administration Memo** – see attached
  - a. PTO Caps
  - b. Meet your Neighbor Day
    - Serving Rootbeer floats on Wednesday 25<sup>th</sup> from 11-1 or until out.
    - Decorating the float Thursday and finishing up on Friday if needed.
    - Prade on Saturday, the 28<sup>th</sup>.
  - c. Expense Sheets – due by the 5<sup>th</sup> of every month.
  - d. Clothing Order – the cost of your order will be deducted from the June 13<sup>th</sup> payroll.
- C. **Behavior Plans/Data** – Wayne and Jeff have behavior plans in therap. These need to be charted on for **AM& PM shifts daily**. HS needs to chart if there is a behavioral incidence on their shift.
  - Every individual that is prescribed a psychotropic medication needs to have a behavior plan – these will be done in Therap. This data is vital for the consumers to continue getting the therapeutic value out of their psychotropic medication.
  - <https://support.therapservices.net/simulators-th/Behavior-Data-Record-Data-Web-2024/> This link will be sent to all staff via Scomm to practice submitting behavior data. On.
  - Please chart behaviors that are under the behavior tab even if they seem to be their normal habits.

D. **House concerns –**

a. Old Business

- PLEASE DO NOT FORCE CHERYL TO DRINK LIQUIDS WHEN SHE IS READY TO BE DONE.
- *WF resting in the afternoon-* Staff should check on and try to wake Wayne after about 90 minutes when he is napping. We do not want his day/nights to be mixed up. On the same note, staff need to allow him the flexibility to stay up until he is ready to go to bed rather than rushing him to bed at his “bedtime.” also if he wants to rest longer than 90 minutes, that is his right.
- *MAR checks –* Please look over the MAR at the conclusion of your shift to ensure you have not missed charting anything you completed or administered.
- *Communicating who is doing T-logs for whom –* There were a few days when not everyone was charted on during a shift and JW was missing being charted on all day. Please take care to communicate with who you are working with to make sure everyone is being charted on every shift.
- Chucks, wipes, and creams thank you for keeping these items tucked away
- Please read the communication book when coming on to each shift. (Stand up on the counter)

b. New Business

- Charting
  1. Intake and output need to be charted for Cheryl and Jeff. There is a cheat sheet that was made to take notes during your shift, then chart at the end of your shift.
  2. Bag numbers need to be charted
  3. Case notes need to be done every day for every client.
- Cleaning
  1. If you use something up, please replace it and make note if you notice the supply is getting low.
  2. If you spill something you are responsible for cleaning up the mess, having liquids left on the floor is a fall hazard for both staff and clients.
  3. The new pots and pans are to be hand washed. This will extend the life of cookware considerably.
- Parking
  1. Please Park in the far row the handicap spot it for handicap guests.
- Bowel Protocol
  1. Nursing and administration will discuss charting BMs will update on any changes.
- 

**Consumer reports:**

**Wayne – Weight: 4/30 - 158, 6/7 - 162**

DIET: Low carb diet-Wayne is to have 4 carb choices per meal and 1-2 per snack. One carb choice equals 10-15 grams of carbs.

**Appointments:** Wayne had his monthly labs done for Dr. Baig. A speech consultation was put in by WF PCP. The speech therapist was here to evaluate WF for swallowing. She said that the best thing to do is to cut all vegetables and fruit into bite size pieces and only give him 1-2 pieces at a time. This will help him from pocketing his food in his cheeks. Wayne was walking funny, and he told staff his knee hurt. Staff gave him 2 Ibuprofen. Wayne Frei had his lab work done for Dr. Baig.

**Behaviors/concerns:**

Ambulates with 1 assist and walker during the day. PROM to all extremities BID. Exercise program BID (Upper Extremity bike BID). Wear compression socks during the day.

Outcome (ISP): Wayne will participate in exploring the herb garden daily with physical assistance from staff.

**Cheryl – Weight: 4/30 - 104, 6/4 - 102**

DIET: Mechanical soft – small bite sized pieces and drink offered between bites.

**Appointments:** Cheryl saw Gastroenterology Karmin Macki today. She discussed the recent CT scan with showed the hiatal hernia with thickening of distal esophagus, she said it could be related to reflux due to large hiatal hernia. She did say that an upper endoscopy for direct visualization or observe for symptoms. Staff did let the doctor know that she would discuss it with Cheryl Guardian. Staff called Cheryl's brother, and he wants to wait and observe symptoms. The DCC did send a message to the Gastroenterologist about Cheryl's brother's decision, which was to not do the scope right now and wait for any further symptoms. Cheryl had a pleasant visit with Dr. Stacy Bienek this afternoon. Cheryl does not need glasses for her vision. She does have cataracts, but surgery is not necessary at this time. Her overall ocular health appears normal otherwise. She can return for a visit in 1-2 years or sooner should a need arise.

**Behaviors/concerns:** Staff went and got Cheryl from DAC, as she was not feeling well. She was given nausea medication as she had thrown up at DAC. The facility nurse had taken her vitals. Facility nurse sent Cheryl PCP a note about arginine. PCP said she can take that instead of arginaid, just watch for breakdown. Cheryl has been very gassy; staff are to try Pepto Bismil per standing orders, to see if that helps. Cheryl was eating supper, when she swallowed a carrot the size of a pinky fingernail and started coughing and gagging. She was talking to the staff at the time and the staff was not commenting to her. She coughed and gagged and kept saying is was stuck in her throat, the staff was able to give her sips of water, and it seemed to help. The staff had sat upright in her chair till the staff was done with dishes to let her stomach calm down. Then the staff helped her into bed, head of bed is at 30 degrees, and she is on her side relaxing with the tv on. She hasn't coughed or gagged since.

**Outings:** Library, CO went to TRF today. There was a music fest with food, games, and karaoke. She ate Mac n cheese and soft chicken with a Shirley Temple. The drive to and back from TRF was fun as well. The weather was nice and the radio was on spot with music!

PROM to all extremities BID. Wears wrist brace on right hand during the day. Tilt W/C for a few minutes every hour. Reposition twice during the night

Outcome (ISP): On average, once every 3 months, Cheryl will participate in an individualized outing.

**Jeff - Weight: 4/28 - 155.6, 5/8 - 160, 5/14 - 158, 5/23 - 160, 5/28 - 160, 6/4 -160**

DIET: Promote finely chopped and smooth consistency foods for Jeff. Prepare it in a way he can eat it

**Behaviors/concerns:** Hospice changed Jeff MiraLAX to daily PRN rather than daily. Jeff had his catheter changed. The hospice changed Jeff Bupropion from 2 times a day to 1 time a day. The facility nurse tried to change Jeff's G-tube, but the hospice sent the wrong one. Jeff is back on osmolyte.

**Outings:** *No outings this month*

PROM exercises BID, hand braces worn 2-3x daily for time tolerated, tilt w/c 30 secs every 30 minutes when in chair, Reposition every two hours when in bed and 2x during the night

**Courtney –**

**Behaviors/concerns:** Courtney hasn't been here all month. Courtney came one day last week and she has a red rash under her breasts and folds. She laid in her bed to air dry and staff applied some ointment to the areas.

**Outings:** *No outings this month*

**The next monthly staff meeting will be held Monday, July 7<sup>th</sup>, 2024 at 1:00pm.**

**STAFF MEMBERS PRESENT:**

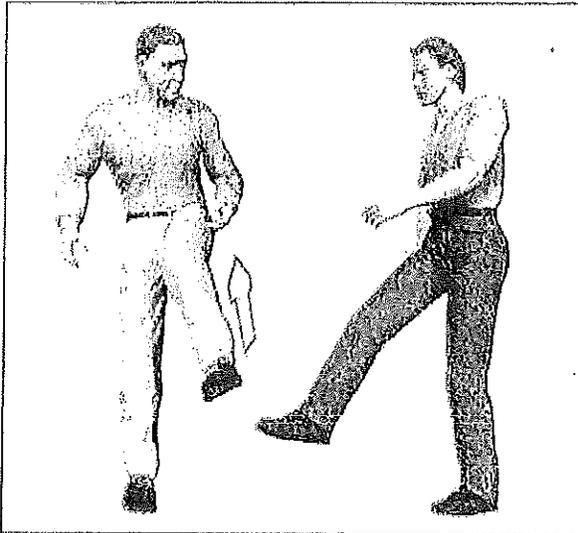

<b>Name:</b>		<b>Position:</b>	<b>Name:</b>		<b>Position:</b>

# Caution

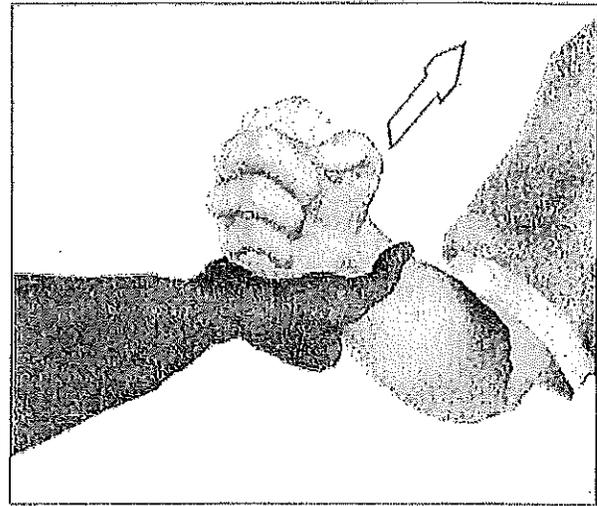

These Classroom Models should be learned and practiced only under the supervision of a Certified Instructor of the *Nonviolent Crisis Intervention* training program. Attempting to learn the techniques from the diagrams may result in injury.

### **cpi KICK BLOCK**

In any strike situation, you can remove the target or deflect the weapon by placing an object between the weapon and the target. The act of blocking or shielding is based on your natural response—a primal reflex to protect yourself from a strike. In this example, the bottom of the staff member's foot is used to shield or block the oncoming kick.

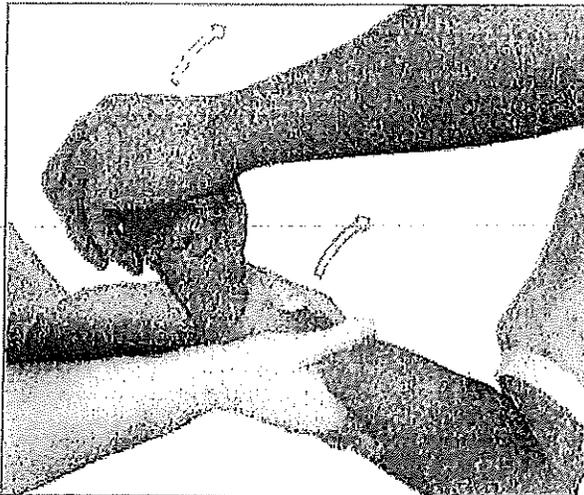

Attempt to move out of the way to maintain safety.

### **cpi ONE-HAND WRIST GRAB RELEASE**

Gain a physiological advantage by using leverage and momentum to pull away from the weak area of the wrist grab (between the thumb and four fingers). You can increase your momentum and leverage by maintaining a balanced stance and using your body position to enhance your physiological advantage. At the same time, you can gain a psychological advantage by using a verbal distraction or an element of surprise.

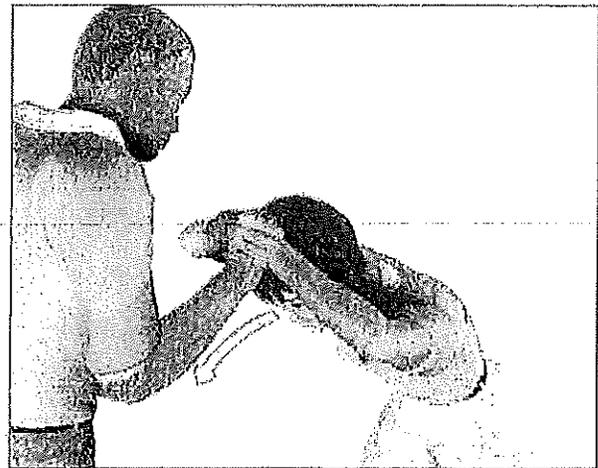

Release and attempt to move out of the way to maintain safety.

### **cpi TWO-HAND WRIST GRAB RELEASE**

Gain a physiological advantage by using leverage and momentum to pull away from the weak area of the wrist grab (between the thumb and four fingers). You can increase your momentum and leverage by using your free hand to assist in pulling away from the grab, maintaining a balanced stance and using your body position to enhance your physiological advantage. At the same time, you can gain a psychological advantage by using a verbal distraction or an element of surprise.

Release and attempt to move out of the way to maintain safety.

### **cpi ONE-HAND HAIR PULL RELEASE**

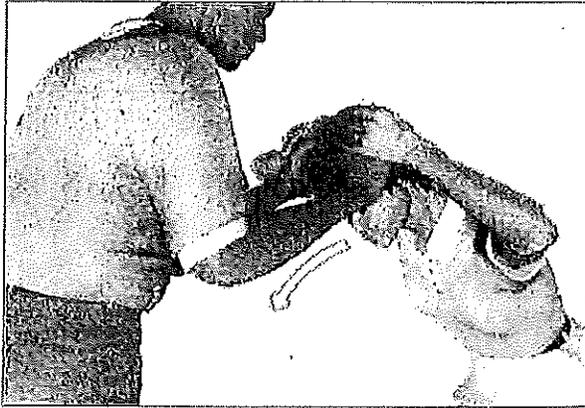

Immobilize this grab by securing the person's hand to your head. By using one or both of your hands to immobilize the person's hand, you can prevent further grabbing of hair and minimize injury. Move your head toward the person, leveraging the arm position to a 45-degree angle. The grip of the hair pull is levered backward, reducing the strength of the grip and opening up the weak point of the grab at the fingers. At the same time, you can gain a psychological advantage by using a verbal distraction or an element of surprise.

As your hair is released, attempt to move out of the way to maintain safety.

# Caution

These Classroom Models should be learned and practiced only under the supervision of a Certified Instructor of the *Nonviolent Crisis Intervention* training program. Attempting to learn the techniques from the diagrams may result in injury.

### **cpi** TWO-HAND HAIR PULL RELEASE

Use both of your hands to immobilize the person's hands on your head. By securing the hands to your head, you can prevent further grabbing of hair and minimize injury. Move your head toward the person, leveraging the arm position to a 45-degree angle. The grip of the hair pull is levered backward, reducing the strength of the grip and opening up the weak point of the grab at the fingers. At the same time, you can gain a psychological advantage by using a verbal distraction or an element of surprise.

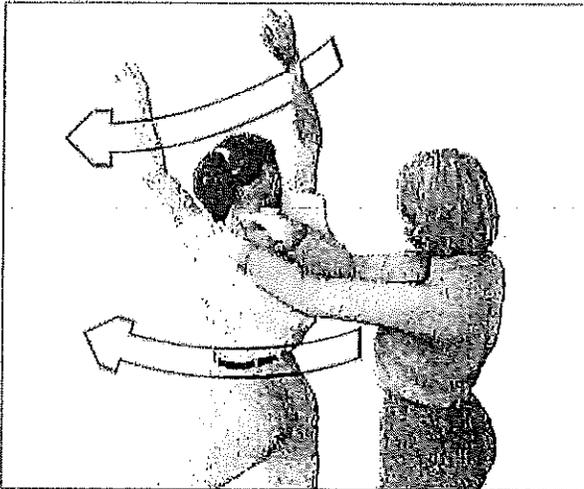

As your hair is released, attempt to move out of the way to maintain safety.

### **cpi** FRONT CHOKE RELEASE

Raise your arms straight up for leverage. (This may also create a distraction.) Lean away to extend the individual's arms; this will weaken the grab. Create momentum by turning your shoulders and arms in a rotating motion away from the individual. Your shoulders will act as a lever while your momentum will assist in releasing the grab. Increase your psychological advantage by using a verbal distraction or an element of surprise.

Attempt to move out of the way to maintain safety.

### **cpi** BACK CHOKE RELEASE

Raise your arms straight up for leverage. (This may also create a distraction.) Lean away to extend the individual's arms; this will weaken the grab. Create momentum by turning your shoulders and arms in a rotating motion away from the individual. Your shoulders will act as a lever while your momentum will assist in releasing the grab. Increase your psychological advantage by using a verbal distraction or an element of surprise.

Attempt to move out of the way to maintain safety.

### **cpi** BITE RELEASE

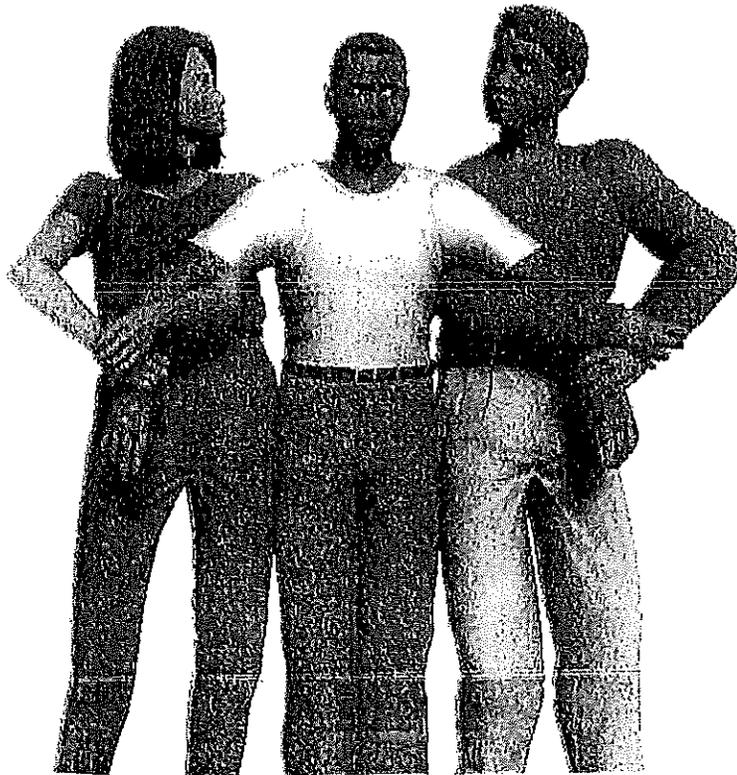

Avoid pulling away from the bite. Instead, lean into, or "feed" the bite, using the minimum amount of force necessary to cause the jaw of the person to open. You may also want to use your finger in a vibrating motion to stimulate the person's upper lip. This vibrating motion may result in a "parasympathetic response" that causes the mouth to open. At the same time, you can gain a psychological advantage by using a verbal distraction or an element of surprise.

Once the bite releases, attempt to move out of the way to maintain safety.

## Caution

These Classroom Models should be learned and practiced only under the supervision of a Certified Instructor of the *Nonviolent Crisis Intervention* training program. Attempting to learn the techniques from the diagrams may result in injury.

### Come-Along Position

This temporary control position allows you to maintain control of a person if it is necessary to escort them out of a room. It is similar to Transport Position above except inside of putting your arm through theirs, you would keep your hand on the back of their upper arm.

Face the same direction as the Acting Out Person while adjusting, as necessary, to maintain close body contact. Use right hand to hold their opposite wrist and use your left hand to guide them from the back of their arm. Gently guide them out of the room.

# Caution

These Classroom Models should be learned and practiced only under the supervision of a Certified Instructor of the *Nonviolent Crisis Intervention* training program. Attempting to learn the techniques from the diagrams may result in injury.

Figure A

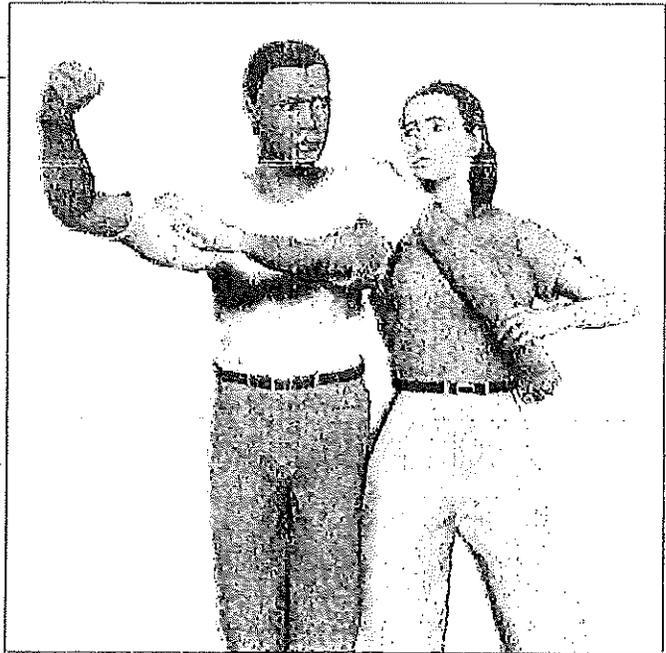

Figure B

## **CPI INTERIM CONTROL POSITION**

This temporary control position allows you to maintain control of both of the individual's arms, if necessary, for a short time.

Starting from the CPI Transport Position, maintain control of the individual's arm, but release the "cross-grain grip." Use free arm to reach across and gain control of the opposite arm. (Fig. A) If the individual attempts to strike, use your free arm to block, and safely move away. (Fig. B)

Pages removed detail Nonviolent Physical Crisis Intervention positions.

## Caution

These Classroom Models should be learned and practiced only under the supervision of a Certified Instructor of the *Nonviolent Crisis Intervention* training program. Attempting to learn the techniques from the diagrams may result in injury.

Figure A

### **CPI** TEAM CONTROL POSITION

The Team Control Position is used to manage individuals who have become dangerous to themselves or others. Two staff members hold the individual as the auxiliary team member(s) continually assess the safety of all involved and assist, if needed. During the intervention, staff members who are holding the individual should:

- Face the same direction as the Acting Out Person while adjusting, as necessary, to maintain close body contact with the individual.
- Keep their inside legs in front of the individual. (Fig. A)
- Bring the individual's arms across their bodies, securing them to their hip areas. (Fig. B)
- Place the hands closest to the individual's shoulders in "C-shape" position to direct the shoulders forward. (Fig. C)

Figure B

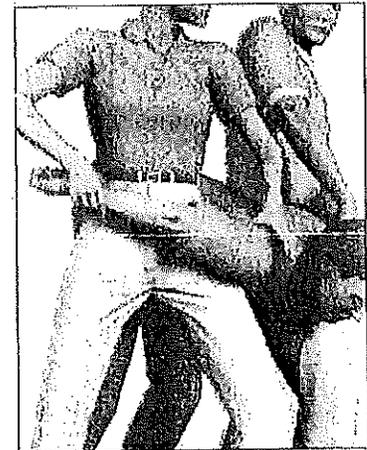

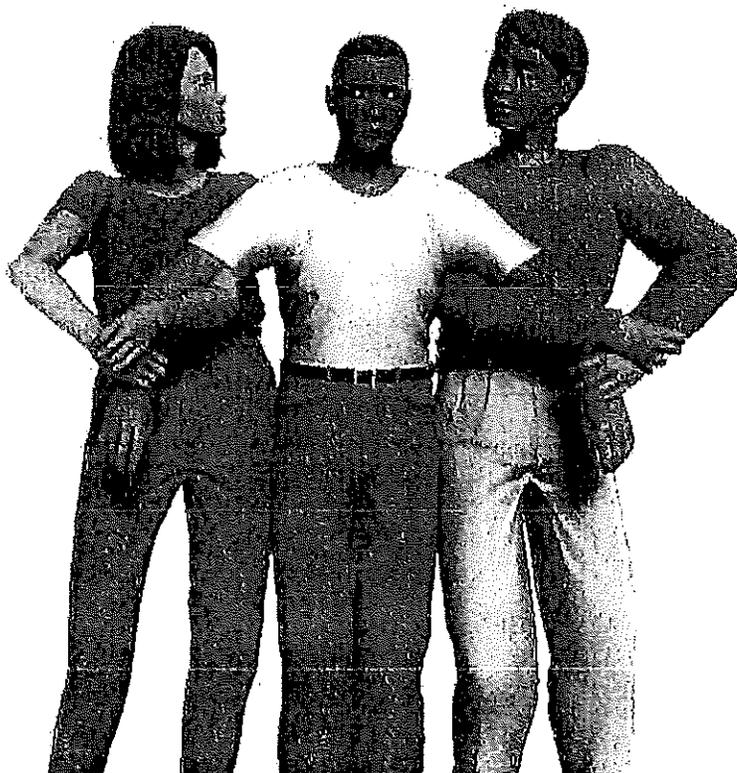

Figure C

## Caution

These Classroom Models should be learned and practiced only under the supervision of a Certified Instructor of the *Nonviolent Crisis Intervention* training program. Attempting to learn the techniques from the diagrams may result in injury.

### **cpi** TRANSPORT POSITION

This position will assist you in safely moving an individual who is beginning to regain control.

Prior to moving an individual, assist the person into a more upright position and remove your hand from the individual's shoulder. Reach under the individual's arm to grab your own wrist. This "cross-grain grip" better secures the individual between staff during transport. Remove your leg from directly in front of the individual prior to transport while maintaining close body contact.

It is not recommended to transport an individual who is struggling. If necessary, return to the CPI Team Control Position if the individual's and/or staff's safety is at risk.

## EMERGENCY USE OF MANUAL RESTRAINT INCIDENT REPORT

<b>Behavior intervention information</b> *This section to be completed within 3 calendar days by staff who implemented the emergency use of manual restraint (EUMR).		
<b>Name of person served:</b>	<b>Date of the EUMR:</b>	<b>Time of use:</b>
Name and title of staff completing this section:		
Date of completion:		
Location type:		
Location address:		
Staff and persons served who were involved in the incident leading up to the emergency use of manual restraint:		
First name:	Last name:	Title:
First name:	Last name:	Title:
First name:	Last name:	Title:
Staff (if available) who monitored the person's health and welfare during the EUMR:		
First name:	Last name:	Title:
*If an additional staff was not available to monitor the EUMR, the staff conducting the EUMR is responsible for monitoring the person's health and welfare during the EUMR.		
The behavior the person displayed that required the use of an intervention included – choose all that apply:		
<input type="checkbox"/> Physical aggression/physical assault	<input type="checkbox"/> Self-injury/self-harm	
<input type="checkbox"/> Self-endangerment/risk to personal safety	<input type="checkbox"/> Property destruction/damage that could harm the person/others	
Describe the behavior intervention used and the resulting outcome:		
Length of use:		
Describe the physical and social environment, including who was present <i>before</i> and <i>during</i> the incident leading up to the emergency use of manual restraint:		
Describe what less restrictive alternative measures were attempted to de-escalate the incident and maintain safety before the manual restraint was implemented:		
Identify when, how, and how long the alternative measures were attempted before the manual restraint was implemented:		
Time when de-escalation occurred:		
Length of time involved in de-escalation efforts:            hours            minutes		
Describe the mental, physical, and emotional condition of the person who was restrained, and other persons involved in the incident <i>leading up to, during, and following</i> the manual restraint:		
Was there any injury to the person who was restrained or other persons involved in the incident, including staff, <i>before</i> or <i>as a result</i> of the use of intervention? <input type="checkbox"/> Yes <input type="checkbox"/> No		
If yes, indicate who was injured and what their injury(ies) were:		
If yes, indicate what care was provided for the injured person(s):		

## EMERGENCY USE OF MANUAL RESTRAINT INCIDENT REPORT

Following the incident, was there a debriefing with the staff, and, if not contraindicated, with the person who was restrained and other persons who were involved in or who witnessed the restraint?

Staff:  Yes  No  
 Person served:  Yes  No  
 Other people:  Yes  No

If yes, describe the outcome of the debriefing:

If no, indicate whether a debriefing is planned:

Was a PRN psychotropic medication administered?  Yes  No

Was law enforcement or other first responders called?  Yes  No

Was there emergency psychiatric hospitalization?  Yes  No

Name of staff who implemented the EUMR \_\_\_\_\_

Date \_\_\_\_\_

### Designated Coordinator review

\*To be completed by the Designated Coordinator upon receipt and prior to the internal review. This information is used to assist in completion of the *Behavior Intervention Reporting Form (BIRF)*.

NPI/UMPI: \_\_\_\_\_ Location number: \_\_\_\_\_

Contact person/provider phone number: \_\_\_\_\_

Contact person/provider email address: \_\_\_\_\_

Type of service that was provided at time of behavior intervention: \_\_\_\_\_

First name/middle initial/last name of the person: \_\_\_\_\_

PMI number of person who needed the intervention: \_\_\_\_\_

Date of birth: \_\_\_\_\_

Gender: \_\_\_\_\_

County/Tribe Lead Agency funding the service: \_\_\_\_\_

County or Tribe where services are actually provided: \_\_\_\_\_

Diagnosis – choose all that apply:  Developmental Disabilities  Intellectual Disabilities (not from DD, i.e. BI)  
 Physical/Medical Disabilities  Mental Illness  Elderly with Age-Related Impairments

Total number of current prescribed psychotropic medications (including PRN psychotropic medications): \_\_\_\_\_

Does the person currently have – choose all that apply:  Positive Support Transition Plan

Functional Behavior Assessment within the past 12 months  Diagnostic Assessment within the past 12 months

Does this person have any conditions (medical or psychological) for which the physical behavioral intervention is contraindicated?  Yes  No

\*This would be established in consultation with the person's support team. Please refer to the *Support Plan Addendum* for more information.

Does the person served require specialized or intensive behavior consultation and/or support services?  Yes  No

Does the person served require a plan for crisis respite placement?  Yes  No

Describe the plan to positively support the person and avoid the future use of behavior interventions:

### Notifications

## EMERGENCY USE OF MANUAL RESTRAINT INCIDENT REPORT

Describe the corrective action plan here, if any:

\*The corrective action plan, if any, must be implemented within 30 days of the internal review being completed. Date of implementation:

\_\_\_\_\_  
Name of person completing the internal review

\_\_\_\_\_  
Date

### Expanded support team review

\*Within five (5) working days after the completion of the internal review, the license holder must consult with the expanded support team following the emergency use of manual restraint. This may be completed by the Designated Coordinator.

1. Discuss the incident reported and define the antecedent or event that gave rise to the behavior resulting in the manual restraint and identify the perceived function the behavior served:
2. Determine whether the person's *Support Plan Addendum* needs to be revised according to sections 245D.07 and 245D.071 to positively and effectively help the person maintain stability and to reduce or eliminate future occurrences requiring emergency use of manual restraint:

Legal representative:

\_\_\_\_\_  
Date of discussion:

Case manager:

\_\_\_\_\_  
Date of discussion:

Other professional (include name and title):

\_\_\_\_\_  
Date of discussion:

\_\_\_\_\_  
Name of the Designated Coordinator and/or Designated Manager

\_\_\_\_\_  
Date

### Expanded review and reporting

\*Within five (5) working days of the expanded support team review, the license holder must complete and submit to DHS the *Behavior Intervention Reporting Form* (DHS-5148-ENG-1). This submission meets the reporting requirements for reporting to DHS and the Office of the Ombudsman for Mental Health and Developmental Disabilities. This may be completed by the Designated Coordinator or Designated Manager and can be found on the following website:

<https://edocs.dhs.state.mn.us/lfserver/Secure/DHS-5148-ENG>

Date of information submission: \_\_\_\_\_

Date the copy of the *Behavior Intervention Reporting Form* (DHS-5148-ENG-1) was sent to the support team: \_\_\_\_\_

**Marshall County**  
Group Homes, Inc.

**BEHAVIOR REPORT FORM**

Consumer Name: _____	Program: <u>CN CS M R IHS</u>	Date: _____
Time of Incident: _____ Length of Time Involved: _____ Recovery Time: _____		
List Names of person(s), employee(s) and/or client(s). Use client initials only: _____		
If not a client, list address, phone number and reason for person being at home: _____		

Type of Behavior (check all that apply)	Type of action/procedure (check all that apply)

### 7.15 Life Insurance

Eligible full-time and part-time regularly scheduled employees working 30 hours or more may enroll in this plan on the first of the month following their date of hire. You must complete an insurance form and designate your beneficiary.

The cost of this insurance is fully paid by MCGH. Participating employees may also be covered under the plan's Accidental Death and Dismemberment rider.

Complete details of this plan may be obtained from the ADM or the OM.

### 7.16 Military Leave (USERRA)

Marshall County Group Homes, Inc. complies with applicable federal and state law regarding military leave and re-employment rights. A military leave of absence will be granted to members of the uniformed services in accordance with the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA, with amendments) and all applicable state law. You must submit documentation of the need for leave to the ADM. When returning from military leave of absence, you will be reinstated to your previous position or a similar position, in accordance with state and federal law. You must notify your Program Director or Program Supervisor (PD or PS) of your intent to return to employment based on requirements of the law. For more information regarding status, compensation, benefits, and reinstatement upon return from military leave, contact the ADM.

### 7.17 Paid Time Off (PTO)

Marshall County Group Homes, Inc. provides full-time and part-time employees with paid time off (PTO). PTO may be used for vacation, sick time, or other personal matters.

#### Eligibility

- **Regular Full-Time Employees.** Regular full-time employees are normally scheduled to work at least 35 hours per workweek and are eligible for PTO.
- **Regular Part-Time Employees.** Regular part-time employees are normally scheduled to work at least 20 hours per workweek and are eligible for PTO.

#### Newly Hired Employees

PTO for the employee's first year of employment will be prorated based on the hire date. New hires are eligible to use PTO after completion of the 90-day introductory period.

#### Deposits Into Your Leave Account

- The amount of PTO received each year is based on your length of service and accrues according to an accrual schedule. The schedule is determined by the Corporation which sets an **annual max amount** as shown in the chart below.
- Once you reach the maximum accrual amount, you will not accrue any additional PTO until you use some of the accrued but unused PTO and the amount falls below the maximum accrual amount.
- You will not receive retroactive credit for any period in which you did not accrue PTO because you accrued the maximum amount.
- Unused PTO can be carried over to the following year, up to the annual max amount as listed in the chart below.

<b>*PTO Full-Time (35 + hours scheduled/week)</b>		<b>*PTO Part-Time (minimum 20 hours scheduled/week)</b>	
1-5 years	6-10 years	1-5 years	6-10 years

6.5 hours/PP 169 Annual Max	7.5 hours/PP 195 Annual Max	4.875 hours/PP 126.75 Annual Max	5.625 hours/PP 146.25 Annual Max
11-15 years 8.5 hours/PP 221 Annual Max	16-20 years 9.5 hours/PP 247 Annual Max	11-15 years 6.375 hours/PP 165.75 Annual Max	16-20 years 7.125 hours/PP 185.25 Annual Max
21+ years 10.5 hours/PP 273 Annual Max		21+ years 7.875 hours/PP 204.75 Annual Max	

Requests for Leave

You must request PTO through the payroll system.

If you intend to use PTO for vacation purposes, you are required to provide notice by the 10th of the month prior to the request. If you are using PTO for personal/sick reasons, we ask that you provide as much notice as possible, if the need for leave is foreseeable.

The Corporation will generally grant requests for PTO when possible, taking business needs into consideration. When multiple employees request the same time off, their length of employment/seniority may determine priority in scheduling PTO.

You must take PTO in increments of at least 15 minutes.

During a Leave of Absence

The Corporation may require you to use any unused PTO during disability or family medical leave, or any other leave of absence, where permissible under local, state, and federal law.

You will not accrue PTO during unpaid leaves of absence, or other periods of inactive service, unless PTO accrual is required by applicable federal, state, or local law.

Separation of Employment

Upon separation of employment:

- non-exempt employees who resign or retire with at least a 10-working day notice - and no time off is used during that period - will be paid 50 percent of their remaining unused PTO time.
- Exempt employees who resign or retire with at least 30 days' notice - and no time off is used during that period - will be paid 50 percent of their remaining unused PTO time.
- MCGH board of directors approved in February 2024 to allow employees the opportunity to **use PTO hours over 40 hours a week, when the following requirements are met:**
  1. PTO hours used were for a SCHEDULED day off in the employee's normal work schedule and was requested off by the 10<sup>th</sup> of the month prior according to policy listed below under **requests for leave**.
  2. Employees pick up a shift that is **not** part of their normal work schedule, in the same week as the scheduled PTO can still use the PTO hours as they are not counted as hours worked or OT. See Example:

Normal work schedule is 40 hours/wk 8a-4p M-F.

Employee works:

Monday-8a-4p

Tuesday-8a-4p

Wednesday-8 hours PTO

Thursday-8a-4p

Friday-8a-4p

Saturday-8a-8p-Picked up shift

Total hours for the week: 32 hours-normal scheduled hours

8 hours-PTO for normal scheduled hours

12hours-picked up **NOT** part of normal scheduled hours

How hours are Paid:

48 hours-paid at regular hourly rate (40 hours worked, 8 hours PTO)

4 hours are paid at Overtime rate

**7.18 Section 125 Plans**

MCGH offers a pretax contribution option for employees. This employee benefit is known as a Section 125 plan.

A Section 125 plan is a benefit plan that allows you to make contributions toward premiums for medical insurance, dental insurance, vision care insurance and out-of-pocket medical expenses or dependent care expenses on a "before tax", rather than an "after tax" basis. Your premium contributions and qualified expenses are deducted from your gross pay before income taxes and Social Security is calculated.

To participate in this plan, complete an election form and return it to the ADM or the OM.

You cannot make any changes to your pretax contributions until the next open enrollment period, unless your family status changes or you become eligible for a special enrollment period due to a loss of coverage. Family status changes include marriage, divorce, death of a spouse or child, birth or adoption of a child or termination of employment of your spouse. A change in election due to a change in family status is effective in the next pay period.

**7.19 Unemployment Compensation Insurance**

Unemployment compensation insurance is paid for by Marshall County Group Homes, Inc. and provides temporary income for employees who have lost their job under certain circumstances. Your eligibility for unemployment compensation will, in part, be determined by the reasons for your separation from the Corporation.

**7.20 Vision Care Insurance**

Eligible full-time and part-time regularly scheduled employees may enroll in an employee only, an employee plus children, an employee plus spouse or a family contract on the first of the month following their date of hire.

A handout containing the details of the plan and the eligibility requirements and enrollment forms may be obtained from the ADM or the OM.

If you elect dependent coverage, you are responsible for paying the difference through payroll deduction.

Refer to the actual plan document and summary plan description if you have specific questions regarding this benefit plan. Those documents are controlling.

At the end of employment you may be entitled to continuation or conversion of the group vision insurance plan in accordance with the terms of the policy and/or applicable state and federal law. For more information, contact the ADM or the OM.

**7.21 Workers' Compensation Insurance**

Workers' compensation is a no-fault system designed to provide benefits to all employees for work-related injuries. Workers' compensation insurance coverage is paid for by employers and governed by state law. The workers' compensation system provides coverage of medical treatment and expenses, occupational disability leave, and rehabilitation services, as well as payment for lost wages due to work related injuries. If you are injured on the job while working at Marshall County Group Homes, Inc., no matter how slightly, you
