

Sophia Adair

Introduction Assignment

Hi I'm Sophia but usually go by Sophie. I'm from Merrimack, New Hampshire and just finished my freshman year of college. I currently attend Massachusetts College of Pharmacy and Health Sciences. I am a pre-med student on an PA track, my career goal is to become a PA. I'm leaning towards specializing in surgery but I also want to explore other fields. To apply for the PA program I need a certain amount of patient care hours. I have decided to complete this that I would become an LNA. My mom is a nurse so it only felt right to do this. I feel like this will help me learn best and create a solid foundation for the future. I feel that this is also a risky but amazing time to become an LNA. So many put their lives at risk during this COVID-19 pandemic we are facing, and if I can help at all I want to. I hope to learn as much as I can from this program and am excited to see where it will take me.
