Departmental Action Plan

Dealership

Student Name

Academy Week

Class & Student Number

Current Situation

We have two areas of concern. First we need to track our lost sales both at the counter and out in the service isle. Second we want to increase tech efficiency by pre pulling parts and delivering them to the service techs.

Overall Objective:

Improve the parts inventory and turn by tracking the lost sales. Increase service and part tech efficiency which in turn would increase both bottom lines.

Proposed Timeline

The pulling of parts ahead of time is already happening. The lost sale tracking is a slow progression, but is happening now. That will be in full swing both in parts and the service isle by the end of Febuary. Delivering parts to the service techs is a difficult thing to do since we can't leave the counter unmanned. March is our target month to see if we need to hire a parts runner for inside the building in order to make delivers possible all the time even if the counter is busy.

Action Plan

Describe necessary actions to reach desired result: In order to track the lost sales we will keep reminding them to do it. Just like any other habit it needs to be repeated all the time and then it will be done. We need to give them the time and authority to feel free to deliver parts out to the Service techs. If that is not enough we will look to hire a lower wage employee to run the parts all the time.

Requirements

Meeting with Dealer:

1. Action Proposed: With the owner currently in Arizona we will provide monthly updates to our progress with the two desired goals.

Meeting with stakeholder(s) (dealership personnel):

2. Describe what is in place to support desired goal: Training and Coaching on how to post a lost sale and why. The Parts Manager has ran parts out to the techs to show and lead by example. We all show we are vested and support the staff on our new processes.

Accountability: Monitoring progress:

3. Who:Kelsea Stigen
What:Parts Manager
By When:End of March
How:Coaching, Training, and Monitoring

Describe checkpoints that have been established to measure progress:

Daily / Weekly / Bi-weekly / Monthly / Lost Sales: Monthly Delivering parts: Weekly and Monthly

4. Date(s) for review:1/3,1/17,1/31,2/21,3/7, and 3/28

5. Estimated cost for implementation: we would purchase about \$150 in stamps for the service isle to help track lost sales. We may also need to hire the internal parts runner, but that will be a decision later.

Projected Date of Completion:

Sponsor Signature: _____

Evaluation of Results: Include measured results. (± Metrics)

Impact Areas:
Sales / Gross / Expenses / Net Profit / CSI /

PLEASE BE ADVISED THIS ASSIGNMENT BY IT'S SELF IS WORTH 100 POINTS.TAKE YOUR TIME AND GET IT CORRECT
