Special order process:

- 1) Request either open repair orders or appointments to special order parts so there is tracking and visibility to service and parts employees.
- 2) Print special order report twice weekly and distributed to service manager and writers.
- 3) Purge special order bin bi-monthly and place unclaimed parts on active bins with locations.

part arrival exercise

Stock order

Outside purchase

Verify quantity with part number on shipper. Receipt to DMS via job # 2062.

Charge part to repair order immediately (add to system in Source 750 if not in database. (standard part))

Place shipper in file box with 1-10 dividers by the last digit of shipper number. Reconciliation occurs one a week when Mopar invoice is received.

Create purchase order to vendor referencing repair order number and assigning to acct # 242 (parts inventory). Authorize the PO will receipt quantity.

Place part on shelf.

Deliver part to the technician.
