Departmental Action Plan

Dealership

Matt Blatt Kia Toms River

Academy Week

Week 2

Class & :

Current Situation

Our Toms River dealership is relatively new as we have just eclipsed our second performing Kia Dealership and thus far have just made the turn to profitability. We have a large amount of obsolete parts from the previous dealership that we were required to buy and it has been a challenge, but we have been chipping away at the balance.

Overall Objective:

A recent change has allowed us to return obsolete parts from 3 months to 6 months.

Our objective twofold:

- 1.) Identify and return large dollar phased out inventory that is still eligible for return.
- 2.) Prioritize obsolete inventory based on least likely to use and return this inventory.

As our sales and service departments increase, we will have higher accuracy in our inventory. Our goal is to reach 15% obsolescence by March 2020, 5% by August 2020.

Proposed Timeline

As our sales and service departments increase, we will have higher accuracy in our inventory. Our goal is to reach 15% obsolescence by March 2020, 5% by August 2020.

Action Plan

Our Service department has grown 100% in the last 6 months, thus creating a return on obsolete parts at a greater rate. However, we do not want to solely rely on our inventory. Therefore, we have utilized third party sites like eBay and Let Go to create a Google Sheet that will allow our other store to view our obsolete inventory rather than make unnecessary orders.

Requirements

Meeting with Dealer:

1. **Action Proposed:** The dealer is Matt Greenblatt's father who we talk to on a da the dealer, we are capable of making changes immediately, even without his a

Meeting with stakeholder(s) (dealership personnel):

2. **Describe what is in place to support desired goal:**
We will meet with the Parts Manager, parts receptionist (Standhope), Service M

Accountability: Monitoring progress:

Who: Service Manager, Parts Manager, General Manager

What: Review monthly

3. **By When:** First week of every month
How: Print and review inventory reports

Describe checkpoints that have been established to measure progress:

4. See above #3

5. **Estimated cost for implementation:**

This should effectively cost nothing other than our valuable time. We could pc party sites at less than what it cost.

Projected Date of Completion:

March 2020

Sponsor Signature:

roy

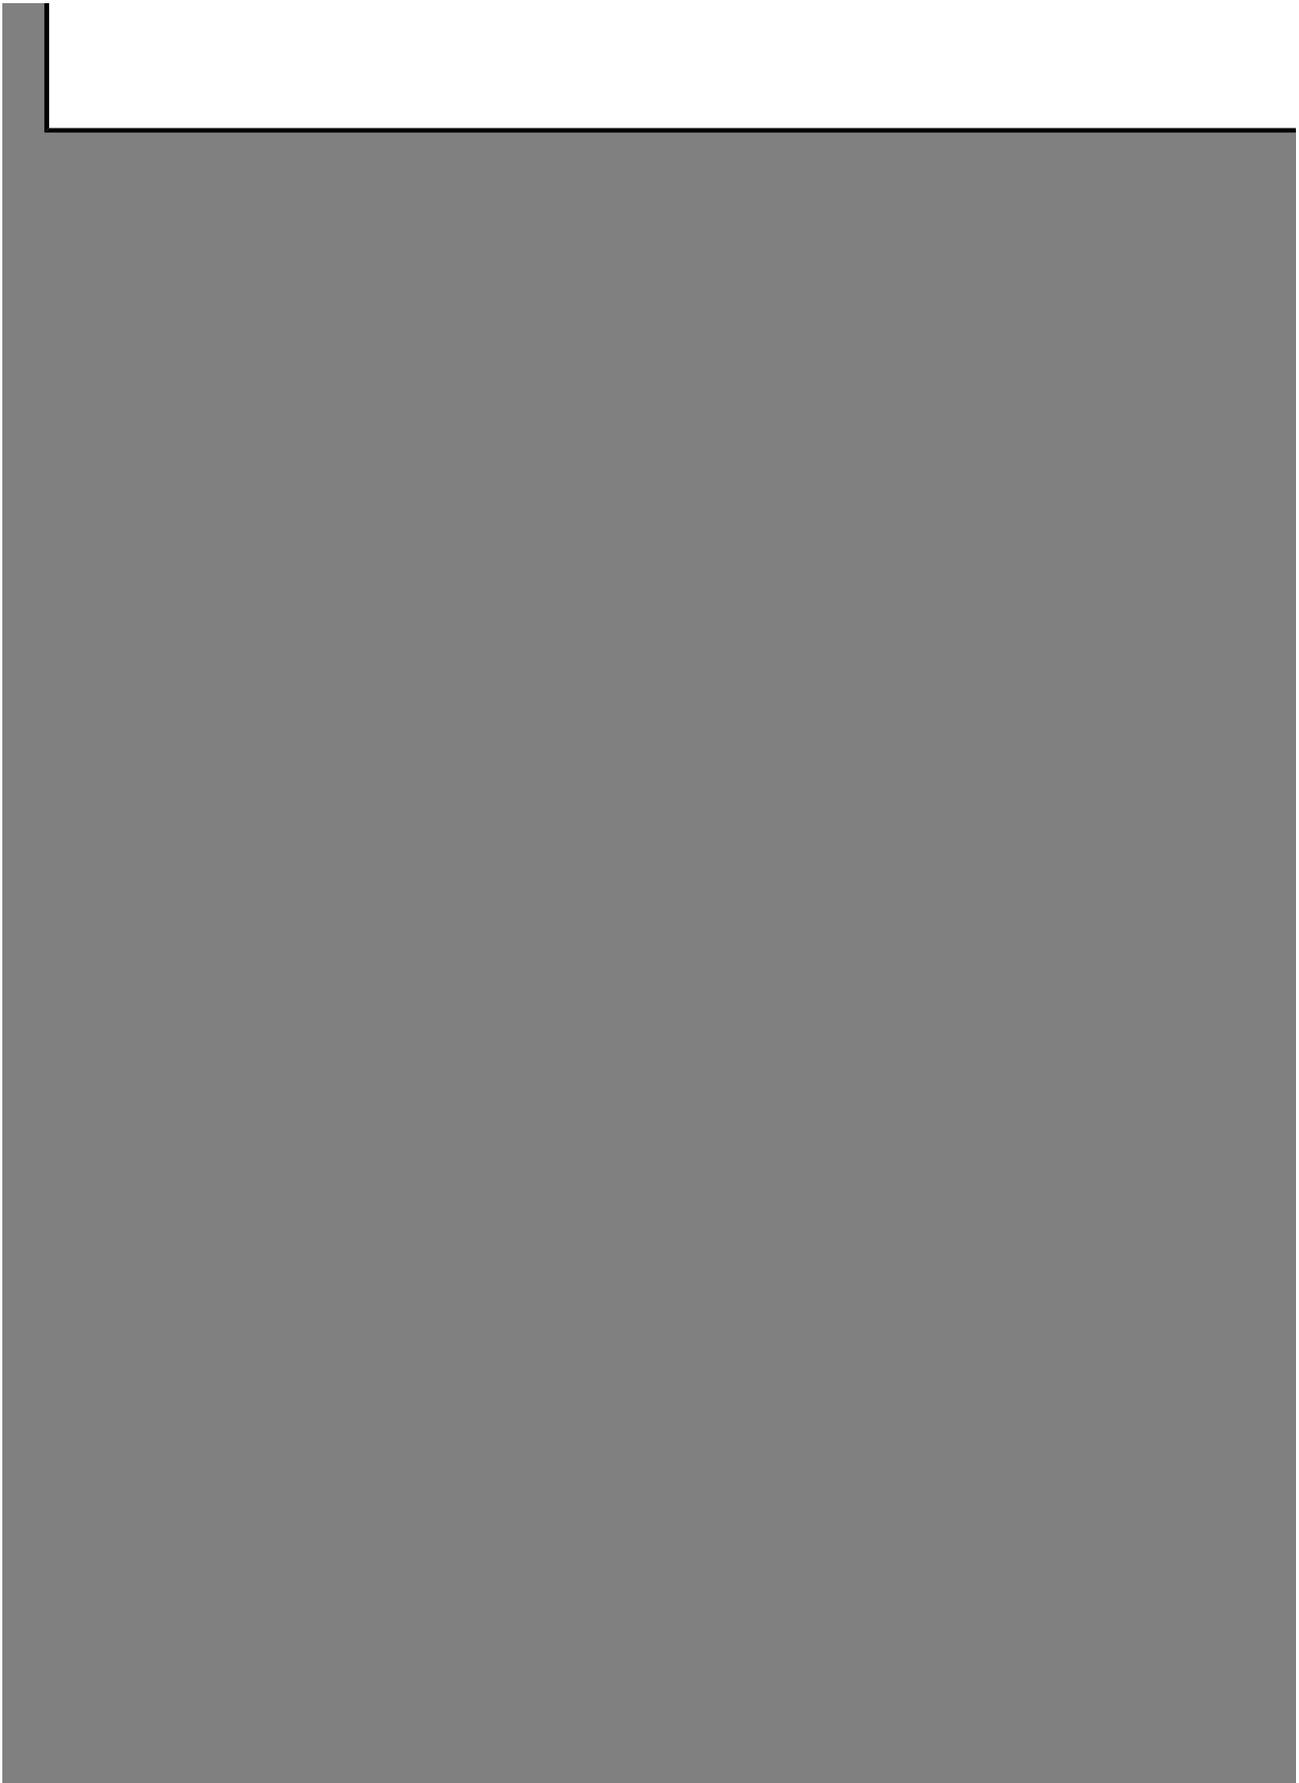

Evaluation of Results: Include measured results.

(± Metrics)

Impact Areas:

Sales / Gross / Expenses / Net Profit / CSI /

Once we have reduced current and limit future obsolecent inventory, we will be able to reinvest the will be able to keep our current storage space cleaner. This allows us to utilize current space rather us to stock newer parts which can turn our service RO's quicker, thus generating more sales, gross newer inventory, we will be able to accomodate more customers based on availability of parts. This
