Action plan for achieving objective
What is the area of focus? Improving the dealership profitability overall and getting all managers on
The same page.
What is the proposed plan? How will you achieve it? I will achieve it by implementing some of the ideas, I've learned from nada. I would like to get all managers to meet for 30 minutes a day before the day gets going to discuss yesterday's work and appointments for that day.
How will you track your progress? What measurements, KPI's? How often will you track? i will log every meeting and what we all discuss. I will measure what every department is doing every week.
Who are the employees that will be involved, or impacted? Will they require training or assistance?
Every department will be involve. Every department need training and more training, that's the only way your dealership can grow and be successful.
Is there a cost, or estimated cost for implementation? I'm sure it will be

a cost. How much, I don't know that answer yet.

Projected date of completion?1 to 2 months
