Departmental Action Plan

Dealership **Phillips Toyota**

Academy Week

Week 2 - Fixed Operation - Parts

Class &

Current Situation

When I returned from class I found our that our parts departments has a price place for as long as anybody here can remember. I think that by implementing will be able to increase our gross profit.

Overall Objective:

Objective 1: Get our Parts Manager on board with the new price levels
Objective 2: Get our Service Manager to "buy in" to the price increases
Objective 3: Increase our Gross Profit by 3-8% on customer pay parts

Proposed Timeline

Phase 1: Review the proposed matrix with Parts Mngr & GM to get feedback a
Phase 2: Make any changes to the matrix and share the new levels with the S
Phase 3: Train Serv Writers/Counter People on how to sell the price increase
Phase 4: Implement new matrix on a modified basis - partial increase now wit
Phase 5: Complete the implementation of the new matrix after an adjustment

Action Plan

Describe necessary actions to reach desired result:

Step 1: Review the current matrix and try to determine its effectiveness
Step 2: Analyse the current make up of all customer paid parts sales in 2017 1 respective gross profits and how to apply a new matrix
Step 3: Build a new price matrix to best capture the most gross profit we can be reviewed on a line by line basis by the parts mngr for any competitive cost
Step 4: Traint the Serv Writers/Counter Sales on how to best sell the price inc negative feedback
Step 5: Determine if the new matrix should be implemented in one or more st customers

Step 6: Implement the New Matrix in part or in whole depending on the decision
Step 7: Monitor our gross on customer pay to see if we are meeting our objectives
this has had a negative effect on overall sales

Requirements

Meeting with Dealer:

1. Action Proposed: Proposed the above action to the Executive Management Team

Meeting with stakeholder(s) (dealership personnel):

2. Describe what is in place to support desired goal:
Training / Coaching / ±Consequences related to results / Pain & Gain

Training: The training on the implementation of a new matrix will be with the sales staff. They will need to be given the proper word track to combat any negative customer feedback.

Commitment: We need the entire service department to buy into these changes with conviction. We can't afford to increase the gross profit in parts only to get a price increase.

Accountability: The parts manager will need to monitor any pricing overrides that are not achieving our goals. Any overrides need to be communicated to the manager and give a coaching opportunity to the manager with these employees.

Pains: Inevitably there will be some kick back from the customers. This is why we and counter people have to be able to combat the majority of the feedback for the price increase.

Accountability: Monitoring progress:

3. Who:
What:
By When:
How:

Who: Parts Manager, Parts Counter People, Service Manager, Service Writers

What: Parts Mngr - Responsible for implementing new matrix, monitoring over the desired goal is being reached. Serv. Manager - Make sure that the service is easier to sell the price increase. Serv Writers/Parts Counter - Responsible for negative customer feedback. GM - Give the support to the parts manager and team to discuss the results and get any feedback.

By When: Ideally the complete matrix will be in place by July 1, 2018. I think it is best to minimize the impact to the customers all at once. It may become necessary to roll out over more periods. This will have to be determined in the weekly meeting with the management team.

How: The biggest indicator of the success of the matrix will be on the P/L. If it does) then we should see an increase in our gross profit as early as July 1. If it does not, success will depend on our management team making sure we follow the plan and monitoring the progress.

4. Describe checkpoints that have been established to measure progress:
Daily / Weekly / Bi-weekly / Monthly /

Date(s) for review:

Weekly - Prts Mngr chks for price overrides - starting April 6, 2018

Weekly - Prts Mngr & Serv Mngr meet to discuss the feedback from the counter

Monthly - GM, Controller, Prts Mngr & Serv Mngr meet to review the P/L and G
the mngrs as to delaying or implementing the follow up price levels. Starting

5. Estimated cost for implementation: The cost of implementation of the price m
from mngmnt to put into place. The writers and counter sales people can be t
Practices. This will be an investment in time, but not have a direct expense or
expense that I will have trouble putting a number on. I suspect that it may imp
this by the slow implementation and the sales training. This is the biggest var
very closely to make sure we don't end up with an overall negative impact

Projected Date of
Completion:

December 31, 2018

Sponsor Signature: _____

Evaluation of Results: Include measured results. (± Metrics)

Impact Areas:

Sales / Gross / Expenses / Net Profit / CSI /

Sales: Part sales will see an increase in volume based upon the price matrix increase. This increa
overall sales due to negative customer impact. The overall benefit will be positive as long as we m

Gross: The GP of the customer pay tickets should increase between 3-8%. This will tie directly to
increase in 2018 will be on the lower end of the range with the full potential being reached in 2019 ;

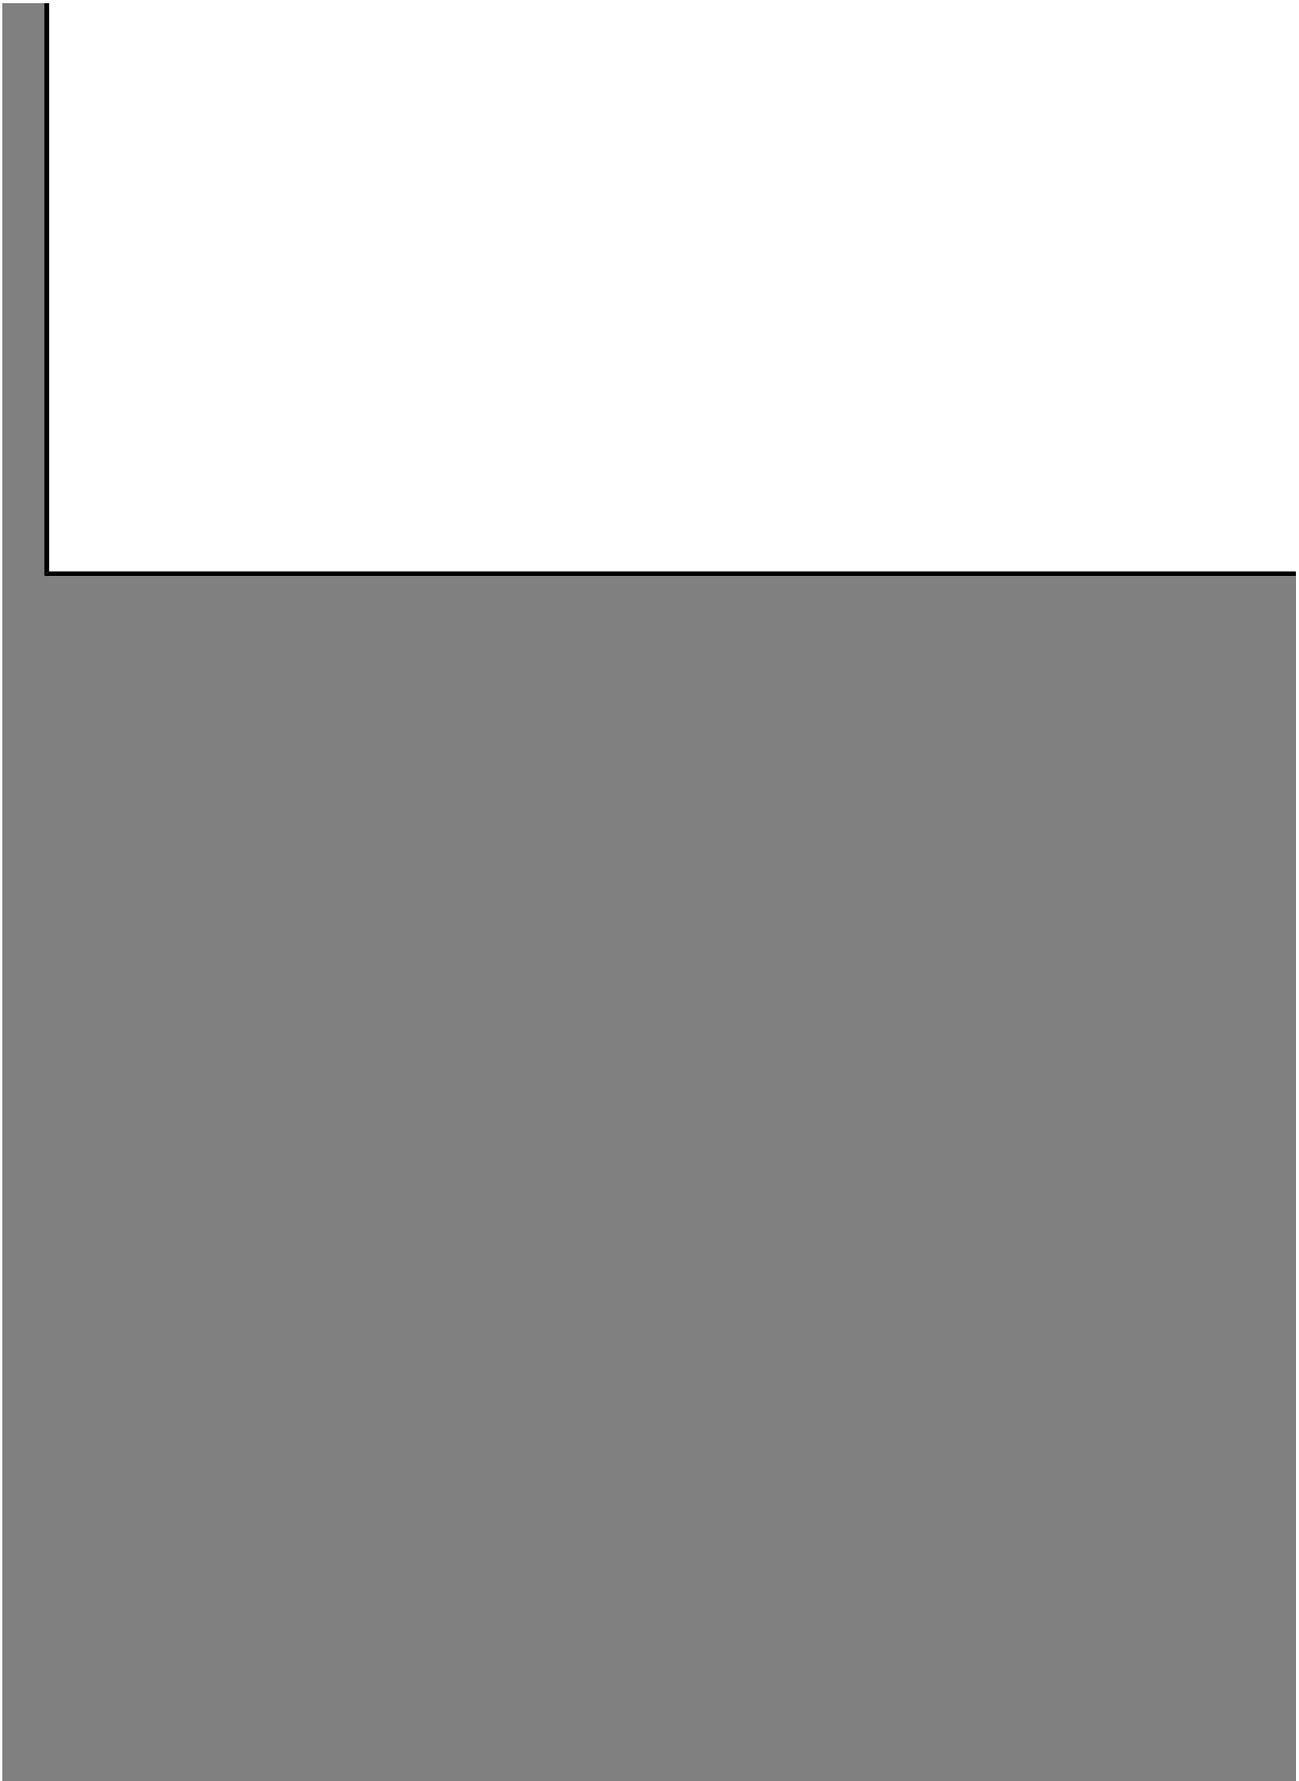

Expenses: As stated above the direct cost on the P/L will be minimal.

Net Income: As a result of our GP increasing with little to no expense increase, then the Net will se
