

# US CLASS SYSTEM

Macionis, Chapter 11

# Learning Objectives

- Distribution of income and wealth
- Social class positions in U.S. society.
- how social class position affects health, values, politics, and family life
- patterns and explanations of poverty
- increasing economic inequality in the United States.

# Who is Right?

- Every culture considers some type of inequality just.

- Capitalist society keep wealth and power for few.

- "Survival of the fittest" explanation

# What is Social Stratification

A system by which a society ranks categories of people in a hierarchy.

1. a trait of society—not of individual
2. Carries over for generations.
3. It is universal—but variable
4. Involves beliefs

# CASTE SYSTEM

Caste system—based on ascription or birth

- Birth determines a person's future
- No social mobility
- Endogamy--(marry in same rank)
- Segregation (within same ranks)
- Rests on beliefs (e.g. Hinduism, Apartheid)

# The Class System

Based on birth & individual achievement

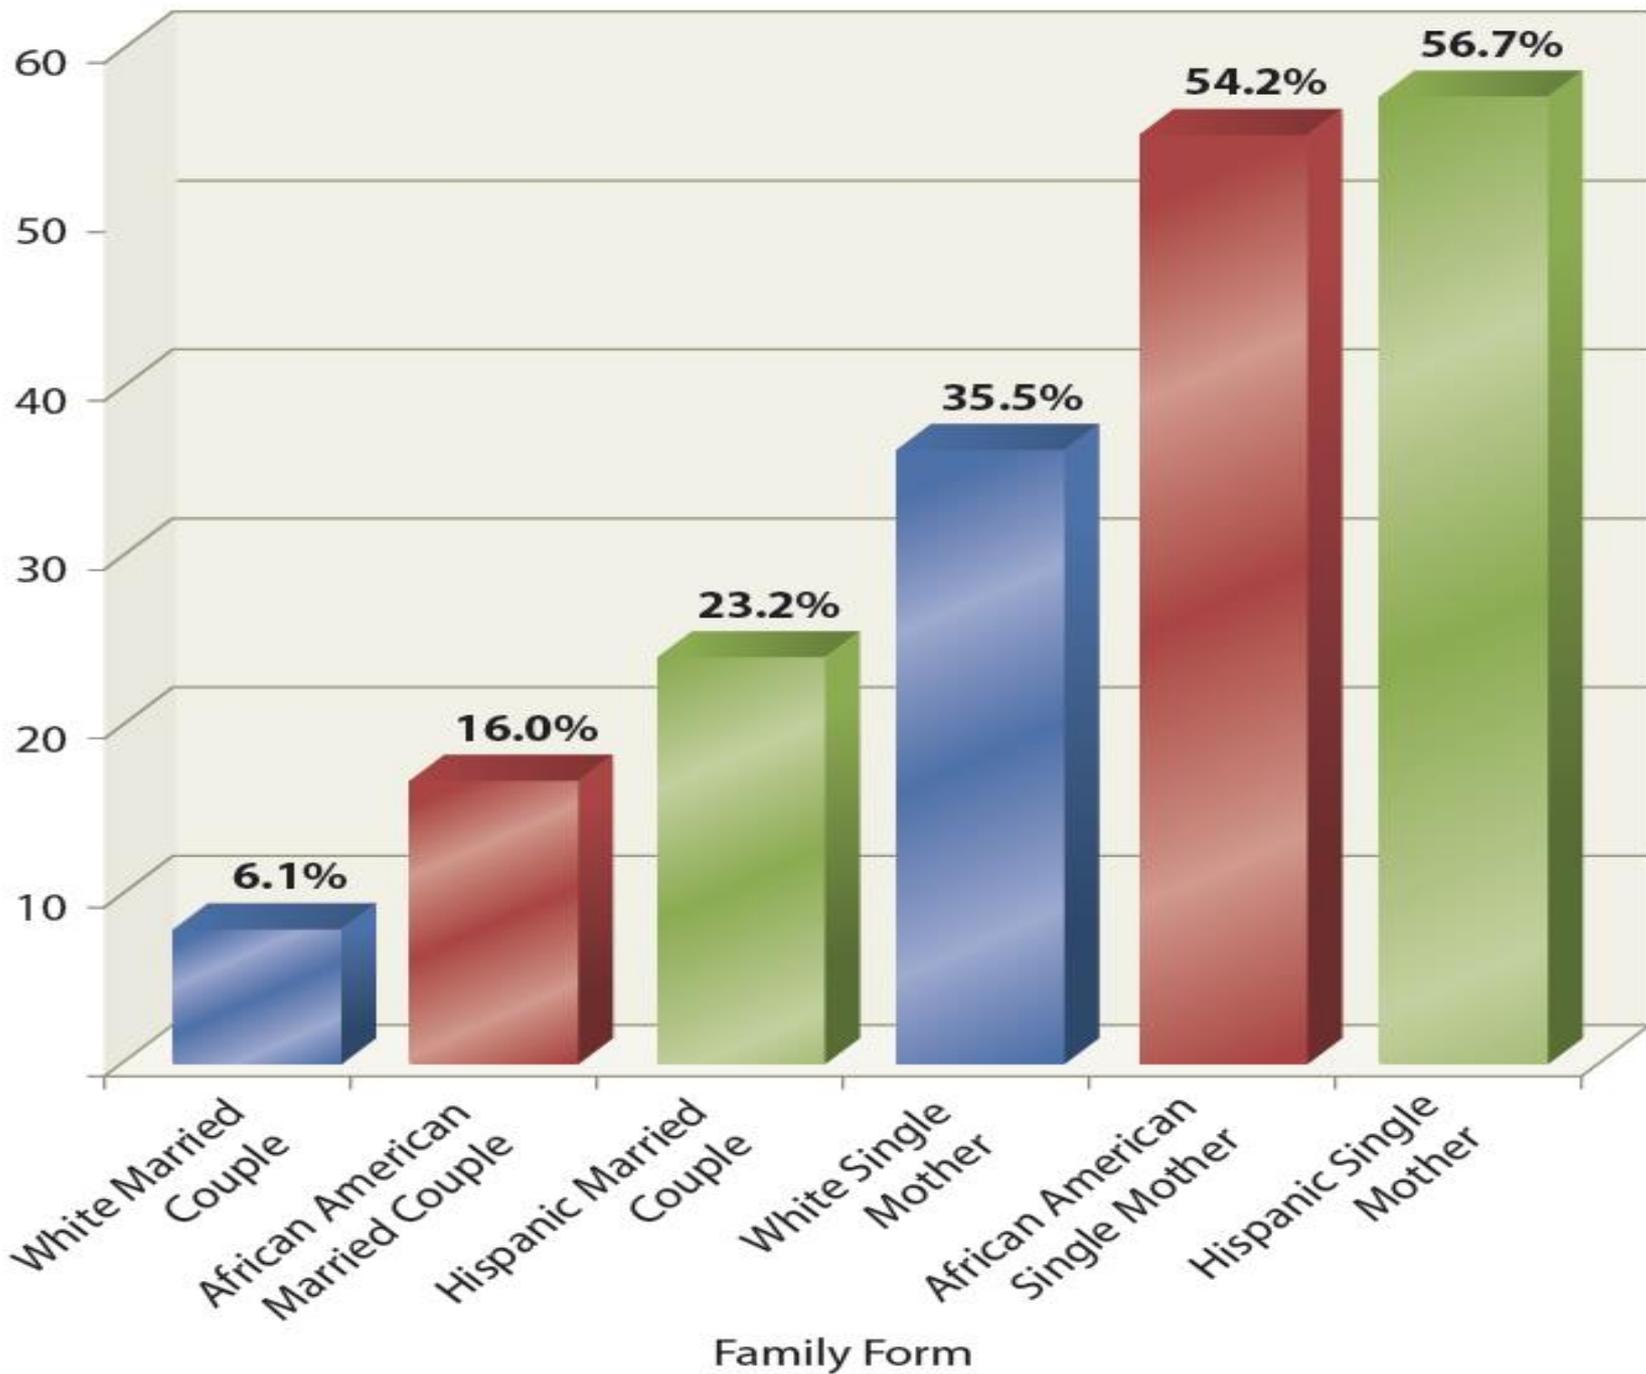

- More open than caste systems'
- Social mobility
- Schooling & skills
- Work involves personal choice
- Free choice in marriage partner

# Meritocracy

Based on individual achievement

- Knowledge, abilities, & effort
- Equality of opportunity
- A pure merit system will destroy families
- Class societies use family to keep order & social unity

Percentage of Children in Poverty, 2011

# Dimensions of Inequality in the US

1. **INCOME**—wages, salary from work & earnings from investments
2. **WEALTH**—total value of money & assets, minus debts.
3. **POWER**—carry out your will despite resistance
4. **OCCUPATIONAL PRESTIGE**—job-related respect
5. **SCHOOLING**—prepares individuals for roles in society
6. **Ancestry, Race, Gender**—Inheritance, caste-like reproductions

# Dimensions of Inequality

Wealth is distributed more unequally than income.

The richest 20% of U.S. families own roughly 89% of the country's wealth.

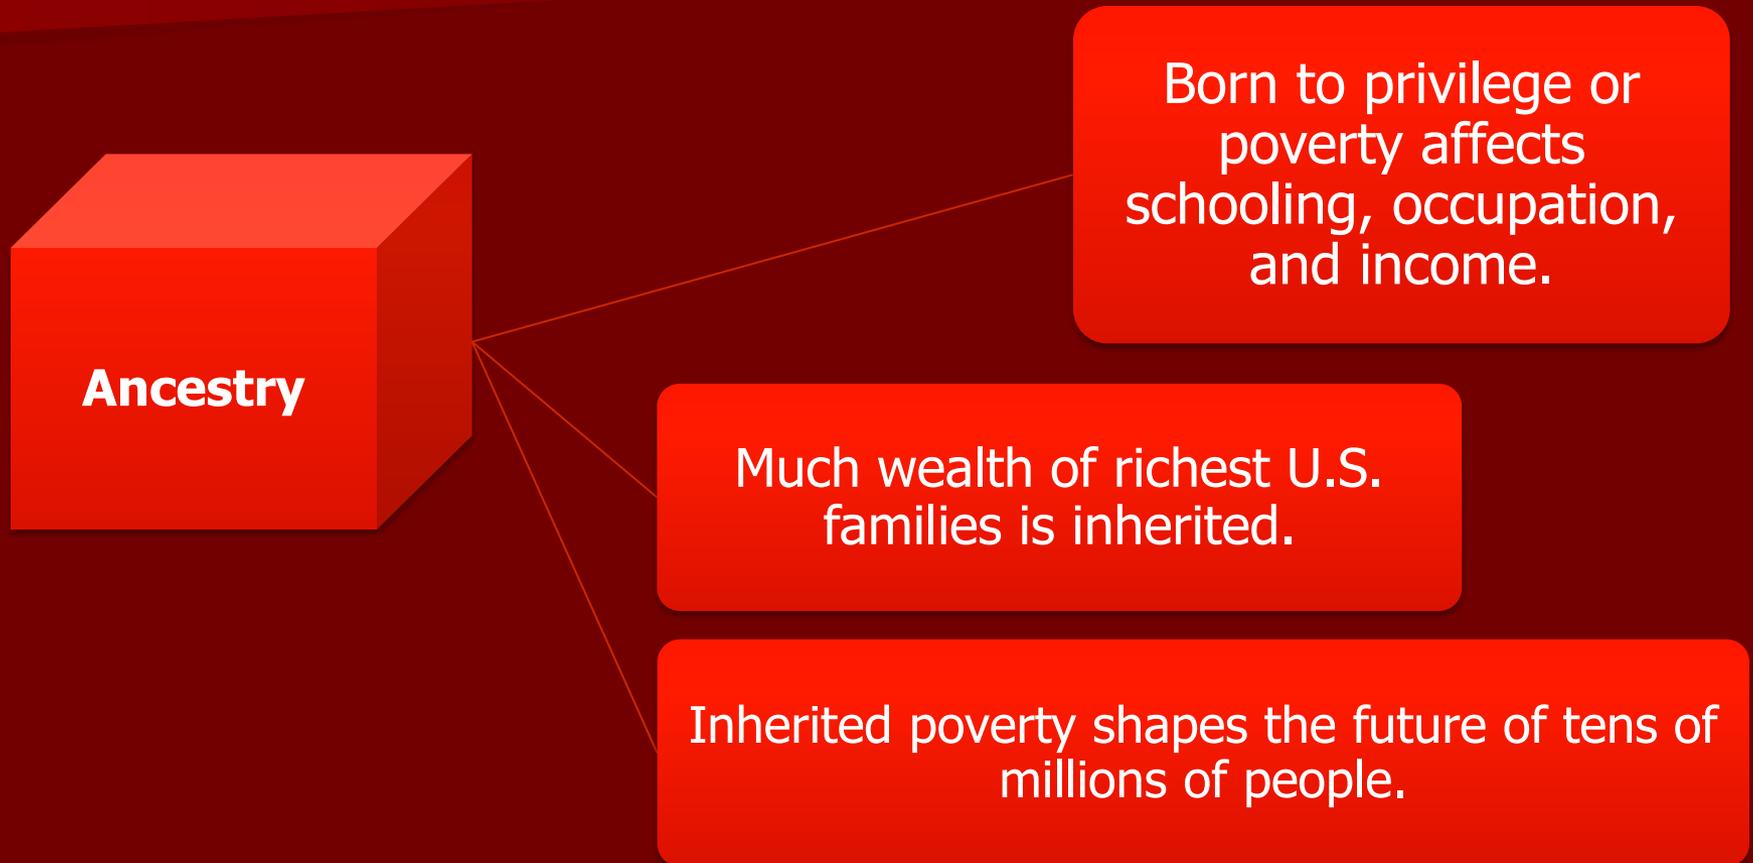

By 2010, average family wealth had fallen to a level not seen since the mid-1990s.

The lowest-ranking 40% of U.S. families have little or no wealth at all.

# US Stratification: Merit & Caste

# US Stratification: Merit & Caste

# US Social Classes

- 1. Upper class
- 2. Middle Class
- 3. Working Class
- 4. Lower Class

Share of Population      Minimum Annual Income

0.1%	\$1,634,000
1	\$370,000
5	\$205,000
10	\$170,000
20	\$116,000
30	\$94,000
40	\$75,000
50	\$61,000
60	\$48,500
70	\$38,000
80	\$27,000
90	\$18,000
100	>0

Percentage of All U.S. Income

Percentage of All U.S. Wealth

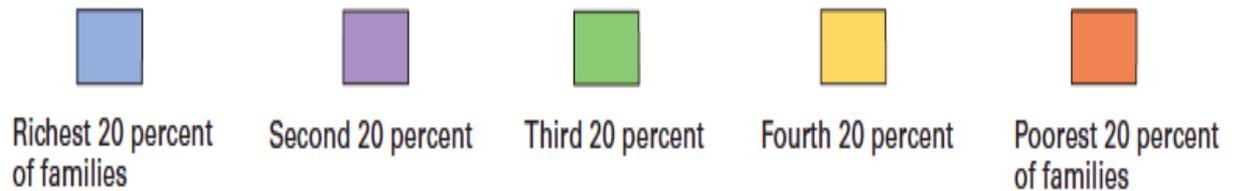

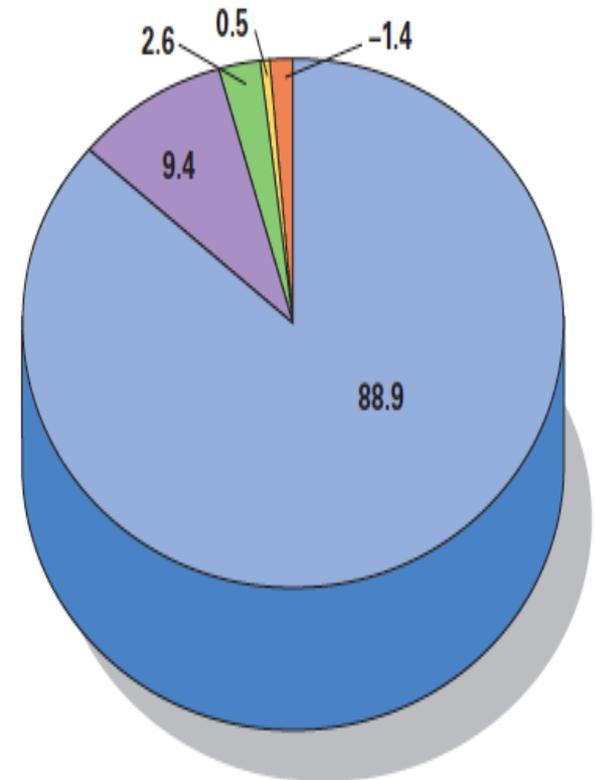

FIGURE 11-1 Distribution of Income and Wealth in the United States, 2011

# A. UPPER CLASS

- 5% of US population
- Earn at least \$205,000 per yr.
- Inherited wealth
- Corporate Executives
- “Capitalists”—owners of production
- Upper Class Divided into 2 categories

# 1. UPPER-UPPER

- Described as “society”
- Less than 1% of society
- By birth
- Inherited wealth/old money
- live in exclusive neighborhoods

## 2. LOWER UPPERS (4%)

- Working Rich/New Rich
- Exemplify American Dream
- Talented/High Achievers
- Status Symbols—conspicuous consumption

## **B. MIDDLE CLASS**

- 40-45% of US Population
- TV mostly shows middle class people
- Target of Advertising
- Has more ethnic diversity than upper class
- Middle Class—has 2 Groups

# UPPER MIDDLES

- \$116,000-\$205,000 per yr
- Live comfortably and have investments
- Two-thirds college graduates
- Many have post-graduate degrees
- Professionals

# AVERAGE MIDDLE

- \$48,000-\$116,000 a year
- Middle managers
- Highly skilled blue collar workers
- Small wealth
- 40% college educated
- Some high school graduates

# C. THE WORKING CLASS

- 33% of US Population
- Lower Middle Class
- \$27,000-\$48,500
- Vulnerable to financial problems
- Core of industrial proletariat
- Little or no wealth
- Live in low-cost neighborhoods

## D. THE LOWER CLASS

- 20% of US population
- 46.3 million classified as poor (2011)
- Society segregates the lower class—especially racial & ethnic groups
- Inner Cities & poor rural communities
- Live in least desirable neighborhoods

# Demographics & Poverty

- In 2011, 48% of US poor were young people age 24 or younger.
- About 7.8 percent (3.6 million) of the poor are elderly.
- Two-thirds of all poor are white.
- In 2011, 27.6% of all African Americans and 25.3% of Hispanics were poor.

# Explaining Poverty

**Blame  
the  
poor**

- The poor are mostly responsible for their own poverty.
- Culture of poverty produces a self-perpetuating cycle of poverty.
- Time limits set for welfare.

# Gender

- 59% of poor are women.
- Women who head households are at high risk of poverty.
- Feminization of poverty is result of rapidly increasing number of households at all class levels headed by single women.

# Explaining Poverty

## **Blame society**

There is little opportunity for work.

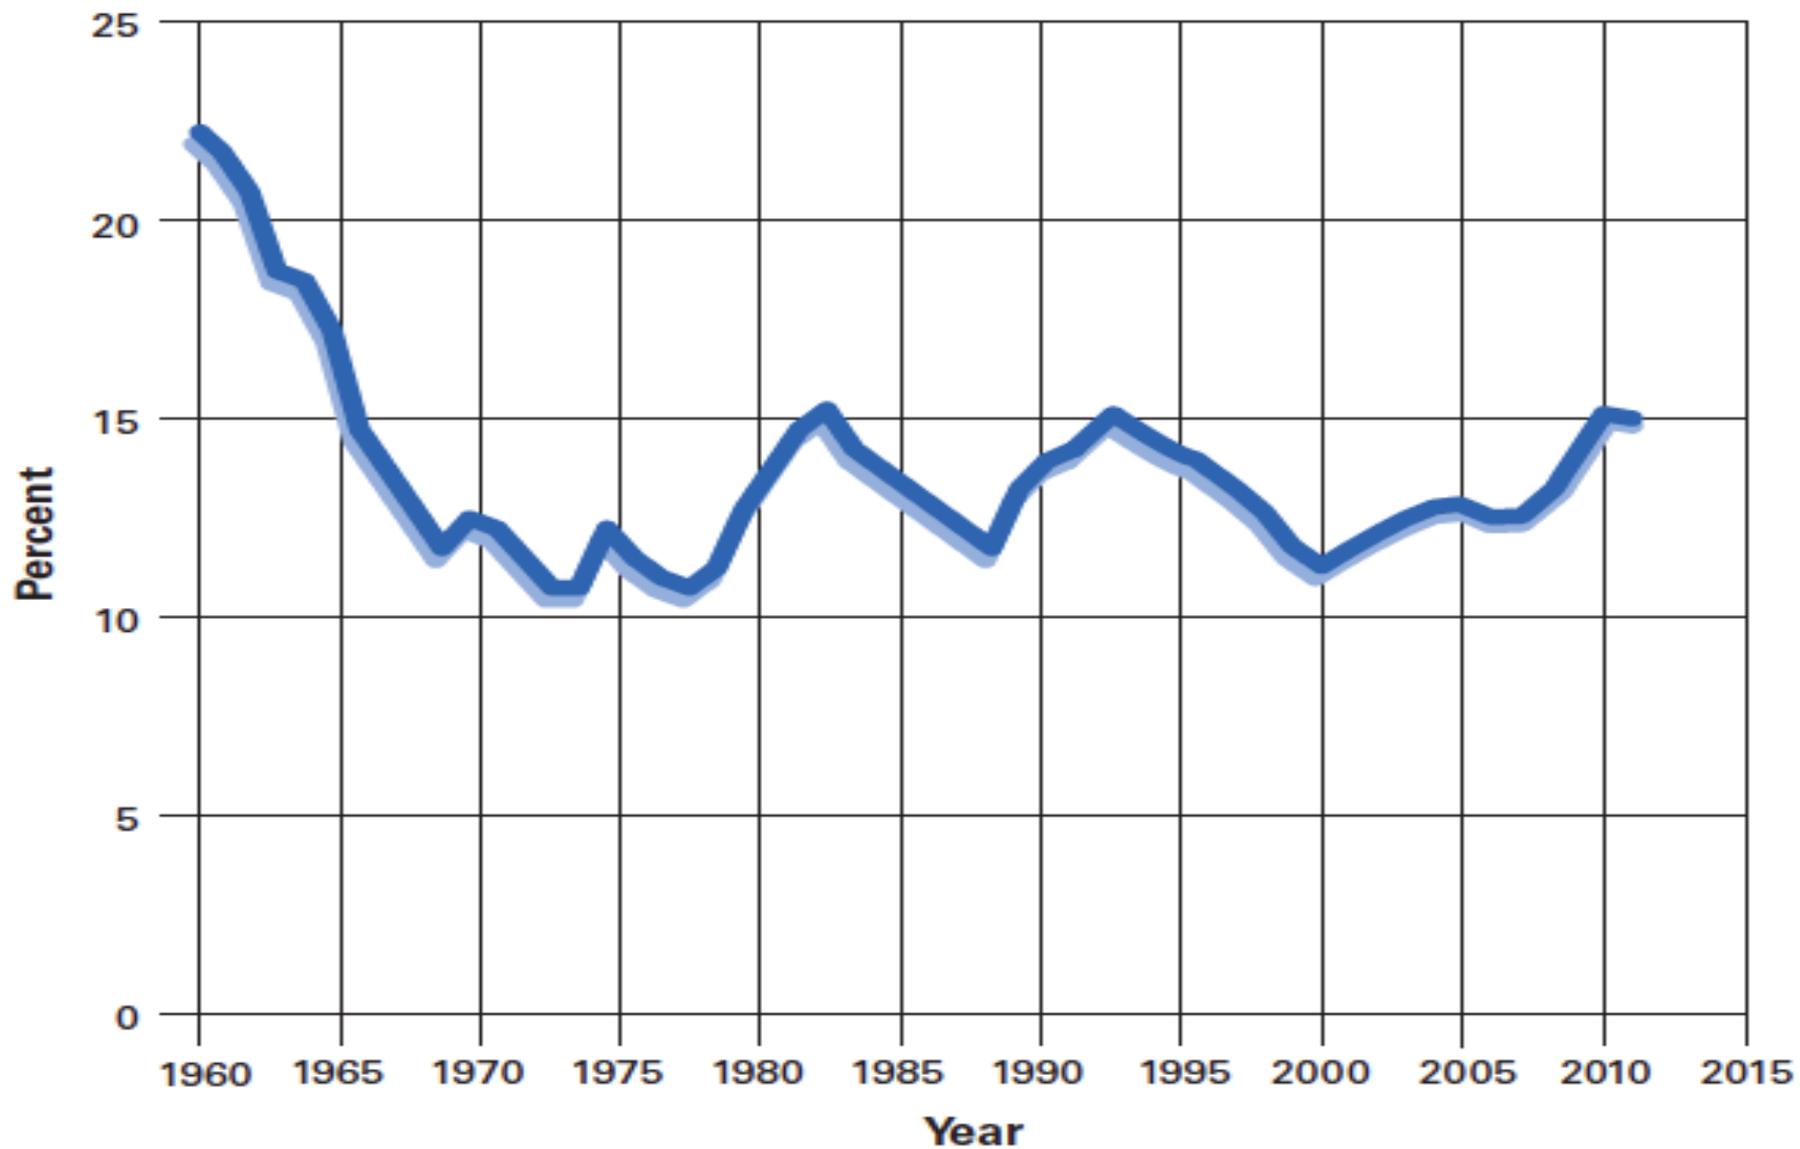

- Society is mostly responsible for poverty.
- Loss of jobs in the inner cities is the main cause of poverty.

# Poverty in the US

Relative poverty—lack of resources in relation to those who have more.

Absolute poverty—lack of resources that is life-threatening

- 46 million (15% of US)
- Poverty line--\$23,021 for a family of 4

**FIGURE 11-4** The Poverty Rate in the United States, 1960–2011

# The Working Poor

---

In 2011, 15% of heads of poor families worked at least 50 weeks a year.

---

Individual ability and personal effort play a part in shaping social position.

---

Society is the primary cause of poverty.

---

A rising share of available jobs offers only low wages.

# Homelessness

## ■ Causes

- Poverty
- Substance abuse and mental illness
- Long-term
- Structural changes in the U.S. economy
- Cutbacks in social service budgets
- Recent economic downturn

# The American Dream

# Welfare Dilemma

---

*Conservatives* AFDC weakened families.

---

Marriage is the key to poverty reduction.

---

Welfare encourages dependency on government handouts.

---

# Welfare Dilemma

---

*Liberals*

Most welfare actually goes to richer people.

---

Most poor families using public assistance are truly needy.

---

Public assistance is a Band-Aid approach to serious social problems.

---

# Question

- Is society responsible for poverty or are individuals themselves to blame?
