### **Introduction to Interview**

All responses must begin with indentation and be written in double space. As you will notice that both margins are at one inch. The entire document has a running header with page numbers on the right. First headings are centered and bold. Second headers are aligned left and bold. Third headers are left indented and bold. Any time there is an idea or quote taken from a reading source you need to cite it e.g. Source (Date) or (Source, Date). These are the basics of APA. If you have any other questions, please reference your APA book.

### **Setting**

Give the basic description of the interview setting. Please include location, demographics and a description of environment that you conducted your interview.

### **Summary of Interview**

Here you have a chance to summarize the content of the interview. Describe in detail the response of the interviewee to the following questions:

- Why did you choose to get into personal counseling?
- What is your personal goal in counseling?
- Did any major developmental theorist influence how you approach counseling?
- What is the greatest joy you have in counseling?
- What is the most difficult part of counseling?

### **Reflection: What insights did you gain from this exercise?**
