Reflective Paper

As seen in the video Ravi Zacharias goes on to speak about worldview, and discusses four very important meanings such as morality, meaning, origin and destiny. I have found it very interesting the way Ravi Zacharias explains exactly what each question means and just exactly how they all seem to be connected at the same time. Over the years I can definitely say that as a follower in Jesus Christ, I have learned many things about myself and also still continuing to learn more about the bible as well. Simply learning about how no matter the circumstances are that I am going through during the moment or what I have faced, as long as I have faith in God, I know that everything will be okay because he is always there for me during the best and worst moments throughout my life. In fact over the years I have come to the understanding that we all have a meaning and it is up to us what we do with the time we are given here on earth.

Everyone's calling is very different and it is very important that we all as individuals understand what our origin is. Our origin is simply the image of us being made and it is easily known that we are all made in the image of God himself because we all strive to be more like him. In a sense I agree with Ravi Zacharias on what he stated, he says " I can only rejoice in the meaning of origin, morality, destiny and meaning because there is so much power of understanding what God does through each of them. Personally I can say that my own relationship with God has been tested throughout my own life, always struggled believing in his word and knowing that he

is always there for me no matter what situation I am in. I will say it is a working progress and I am doing a better job with trying to understand Him and learn more about the bible. I will say that I have yet to understand my origin within Christ and I am willing to take the next step because I know once I do understand, it will be amazing. With that being said, I know that I need to form a relationship with God and I would love to have a great relationship with Him one day and I know it will take time. Also another important aspect is that the Bible tells us that Jesus wants individuals to understand and seek their purpose for life. I do in fact believe I know what my purpose is and I will say that I have fully accepted it and I actually love it because I know when I have the chance to tell my story, I know that many people such as friends, family, even people around the world if I have the chance, certainly will be moved and hopefully I can motivate them to keep constantly to work hard and never stop chasing their dreams. Also to teach others that it is okay to build a relationship with Jesus Christ and to learn more about the bible because before I came to Nyack, I did not have a relationship with God at all. Next, further Dr. Zacharias speaks on morality and that means to find value in what you are seeking. There in fact is morality because if you were to go back and reflect on your life, you will realize that God is real and that he always showed he was there with us every step of the way even when we thought otherwise. As far as the destiny, it can be seen as future events for God's children for what he has placed among us. Finally, I will say I really enjoyed listening to Ravi Zacharias speak about morality, meaning, origin and destiny and also he goes on to explain how powerful God is in the video about worldview.
