Subject: Introduction to Professor Hartl

Background/Academics

Hello, my name is Mitchell Reed and I am 20 years old. I have two brothers and a sister of which I am the oldest. I am in my junior year as a business major here at Nyack College. I decided to be business major because I am fascinated by it and how different business achieve success in different ways. Right now, I work at my fathers company over breaks that I have. It is a cool opportunity because it is a business that delivers jewelry showcases to different shows and auction houses. Therefore, I do a lot of work in the city where the cases are delivered, which helps me see how business is done in the city. I hope to gain more of a knowledge of how to communicate in the business world from this class.

Interests

As I stated earlier, I love soccer. I love watching it, coaching it, and of course playing it. I have played since I was three years old and I haven't stopped since. I love watching the pros play so that I can make my game better and learn more about the beautiful game. I

have coached five teams, and I have also trained my brother's team as well.

I also like working with children. Every summer I volunteer at a Christian camp in Pine Bush, NY. I help run the camp for children from ages 8-14. My duties as program director include planning the days out, getting in front of everyone to explain what is happening next, and I also try to keep the enthusiasm up.

Achievements

Some achievements that I am proud of are getting on the All-State team in high school, making the NJ state soccer team, being program director at the camp, having a good GPA, and being a good big brother to my siblings.

Goals

My short-term goals are to graduate in May of 2021. Also, I would like to make playoffs with the soccer team next year and hopefully go far in the playoffs. I want to be able to try out for some professional soccer teams because that has been a dream of mine for a long time. As well as that I would like to get an internship somewhere in the business field next year, which I will be looking for soon. My long-term goals are to find a good job that can support my future family while living a life that is pleasing to God. That is the only way that I will be truly happy while living a fulfilling life.
