

Spiritual formation 2nd assignment

Kang seong shik

I was very glad to listening audio lecture that fully explained solitude and silence in the presence of God. We are too busy to have personal space with God include Sunday. I had very special moment with God in the local park. It usually takes 15 to 20 min with walking. When I call the heavenly father, I could not describe such wonderful feeling. I am feeling like psalms 131. David described his soul as weaned child with its mother. I am like a weaned child I am content.

This semester is very important for our family include me and my son who is senior year at college. My son is looking for job in many different ways. I felt that we are too busy and anxious to trust our father. I learned that God makes me to have personal space.

I always busy with heavy life responsibility rather enjoy all circumstance with giving thanks. I hope that I can surrender myself every day in the presence of God. This is class makes me how to close our heavenly father.
