Assignment 5 Video Response 2

1. What was the horrible spin in this case?

I think the horrible spin about this case is that another mother/adult was involved with the fake account of Josh.

2. What do you learn about cyber bullying here?

That it can happen to any child. No child is exempt. Children need to be educated on how to act on the Internet and on social medias.

3. What does her mom regard as the best way to handle bullying?

To validate what the child is feeling and making sure that they know that they are heard and understood.

4. What thoughts or questions emerge for you here?

This causes me to questions how I would handle a similar situation or maybe if how I, as a teacher candidate could create a safe environment in my future classroom. How can I encourage other students to not just be bystanders but to stand up for those being bullied.
