### Composition & Research Module: Corrections

1. Throughout the paper it says “cherch” multiple times which is incorrect spelling. This can be fixed by instead writing “church”.
2. In the second paragraph, the sentence begins by saying, “Principled Pluralist ain’t not like...”. By saying “ain’t not” they are using a double negative and it isn’t proper grammar. It would be better to say, “Principled Pluralist are not...”.
3. The last page should be a bibliography/works cite page. The citations should include author, title, and publication information.
