

Biblical Model of Learning

What Piaget tells us

We have been given amazing cognitive ability

- Psalm 139
- Adaptation
- Accommodation
- Equilibrium
- Decentration
- Reversibility
- Egocentrism
- Learning in stages: sensorimotor, preoperational, concrete operational, formal operational

Biblical Implications of Scheme Theory

How do you tell an orphan child about the Father's love if their scheme for Father is "non-present". How do we address the misconceptions?

Methods of Instruction-Piaget

- Optimal discrepancy
- Direct Experience
- Social Interaction
- Thought-Provoking Questions
- Learner Response
- Problem Solving
- The Learning Environment

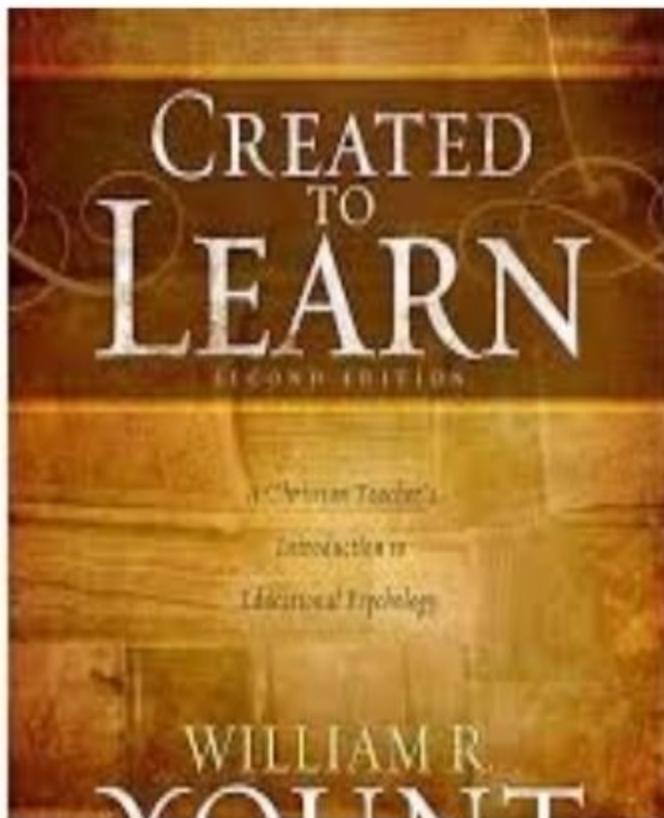

The Work of the Holy Spirit

Piaget's Theory

- Constrained to biological processes
- Goal-men who are capable of doing new things
- Teacher as power force

Holy Spirit as Teacher

- Moves like the wind
- Infuses those teaching spiritual things with spiritual power
- Employ Piaget theory... but realize that he wasn't Christ focused
