Rita Pierson's Ted Talk; "Every Kid Needs a Champion" emphasizes the importance of the teacher/ student relationship. What I loved about this video was how Pierson acknowledges that being an educator is vigorous, however, she also says that we as educators it's more than just teaching, but it's a connection that we must make with our students in the classroom. This video has shown me that it is about the mindset you carry in the classroom, and outside the classroom that counts.
