

Who are you?

My name is Ketsia Alexis, I was born and raised in Haiti. I have been in USA since 2008, and I am the mother of Mollykeith Alexis, my princess, and my only one daughter. This semester is my third semester at Nyack College. My major is bachelor's in nursing (BSN). I am a Licensed practical nurse, (LPN), I decided to continue my career in Nursing because I felt like Nursing was one of my callings. I also enjoy taking care of others.

Jesus is m everything. When I was 20 years old, I encountered with Him, and since then I knew that there will be no other place than being in the presence of God. It is true that I was born and raised in Christian Family, but I personally choose to follow Him at 20 years old. Since then I stay connecting with Him, to be more specific, Jesus is my strength, when I am weak, my life, my treasure, and my all in all. Without Him I would not be here enjoying life.

My mother is one person that I admire in life because she is a really hard working and dedicating woman. She knows what she needs in life and she always try her best to help others. For her, helping other in a must. She even forgot sometimes to care for herself while helping others. On top of these ,she is a woman of God , she loves the Lord and tries to share it with others daily and whenever she get a chance to share it with other she won't hesitate to do it. She is in love with God like I am in love with God.

One of my dream is to be a Nurse Practitioner (NP) so that I can have my own practice. I also would like to be a missionary where I can travel in different countries or places to help and spread the words of God. Last year was my first mission trip to Haiti, I can say I enjoyed

everything I did in the mission trip. Since then I decided to go at least every year. Last year, I realized it is always good to use your time for God, when doing that you will not regret it. What astonished me the most was that before I went to the mission trip , I was overwhelmed and scared because I thought I was not ready for mission, but when I got there I realized I was over-prepared. I learned that everyone could do mission, you do not have to have a specific thing ready to go on a mission trip. God used me in a marvelous way, if He used me, He could use anyone as well. Since then, I said that I need to use my time for God, I felt amazingly blessed, I never felt like that before and I really want to experience more in the future.
