#### ASSIGNMENT ON MAKING AN EARNEST ASSESSMENT OF MYSELF.

I indeed will like to make an earnest assessment of myself by saying that I am a developer.

I am a developer in my marriage to my wife of 9- years. I am also a developer to my wife's daycare for about 16-children. I try as much as possible to help with the upkeep and smooth running of the daycare from day to day, week to week , month to month, and eventually year to year. I make sure that the daycare and the children do not suffer loss or damage of any kind.

As a builder like Nehemiah, I try as much as possible to build up my wife spiritually, mentally and emotionally, by giving her moral support. I also try as much as I possibly can by restoring the souls of children from pre- Covid and post-Covid sufferings. I call their parents with my wife on a video conference call weekly to make sure that they are doing fine and that they are playing it safe out there with their children.

If any child comes in sick with running temperature or fever, I notify their parents immediately and keep the child cool and comfortable until the parents come back to take the child to either urgent care or emergency.
