

## Instructions

Come up with an essay topic of your own choice. Use the brainstorming strategy. Write a list of things that you know about well. Then select one idea from that list for your essay topic and brainstorm ideas for that topic. Submit the list of things that you know about and the list of things that you came up with for the topic that you decided on. Submit your topic and both brainstorming lists to the DropBox

### HOW TO PROTECT OUR ENVIRONMENT

As we all know, our environment is getting worse and worse. Fortunately, much progress has been made in recent years in protecting the environment. In order to live a better life, we students, should try our best to protect our environment as well.

Firstly, save energy in our daily life. We ought to turn off the lights the moment we leave and turn off the tap when we are brushing our teeth. We can recycle and reuse things. Say no to plastic bags. Secondly, call on people to plant more trees and take measure to reduce water and air pollution. What's more, we should put the low carbon lifestyle into practice. we should take part in more activities such as ' Earth Hour', which is used to call on to keep the lights off for one hour at a special time. It can save energy and improve climate.

Just set our mind to these: no- car day, no plastic bags, and no waste .In a word, if everyone pays more attention to our environment, there will be less pollution and our life will be better.
