

HOW DO I BECOME WEALTHY

MAFIKUYOMI KOLAWOLE

ENG101: COLLEGE WRITING 1: NZB/NLSB

How can someone be wealthy? this is a big question that troubles our mind everyday of our lives. I think people do not understand the real meaning of being wealthy. It goes beyond of having a lot of money, having exotic cars, by giving people money and spending money lavishly in the public. To some people they think being wealthy is the same as being rich, this is not too clear to a lot of us but to my own point of view is capital NO.

The word wealth is commonly used to describe someone who has a lot of money and possessions. Someone is wealthy because he or she can choose to stop working are still able to maintain his or her lifestyle. It is not the amount of money you have in your bank account that determines how wealthy you are.

I believe that to become wealthy is not an easy task and there are few steps we need to follow in order to get involved in the race. You must not rely on how big is your salary account, or on the size of your paycheck. Because being a salary earner, that cannot make you wealthy in life. When you are working for salary or wages you can never be wealthy because you are still serving as a slave under someone (employer). It can only take God's will or grace of God, for salary earner to be wealthy in this world.

Wealthy people always go for new things that add more to their values, they do not reject new ideas, in other hand, they do always try to understand different situation they find themselves. Moreover, wealthy people always creative and engaged themselves in new business and investment, this is added to their initial investments.

Being wealthy is not only having enough money to meet your needs but it is being able to afford not to work if you do not want to work. It is about acquiring assets and making your money for yourself. Wealthy people do not necessarily own the latest material things or when you are spending money lavishly. The wealthy people always engage themselves in acquire a lot of assets, such as real estate, stocks, investments and cash.

This is because rich people spend a lot of money, but wealthy people save and invest most of their money. Wealthy people might have a lot of money, but they do not spend it or throw it out any how for the public consumption. And they certainly do not use debt, unless it is for a very clear purpose, such as an investment on a house or property.

A wealthy person saves as much money as possible and invests it in assets. That might mean purchasing real estate and investing in stocks. Regardless of how they invest, wealthy people know that in order to grow their wealthy, they need to turn their cash into assets.

There is difference between being rich and wealthy. It is possible for someone who makes money less than a rich person to actually be wealthier than the rich person with the fancy car and latest fashion designs that he or she have acquired.

To be rich simply means to have a lot of money or income which bore down to how much cash you have in your bank account. But just because you are rich, does not mean you are wealthy.

When we speak of wealth, the images that come into most people's mind are big houses, expensive cars, and luxury items. Wealth is represented by money and the possessions. On the other hand, power is the ability to manifest our intentions, to change our environment, to require someone to do something to our desire, to have authority, and so on.

One of the ingredients if you want to become wealthy in life you need to add some value to yourself. I would suggest that there a lot of ways in which you could use to add value to your life to become wealthy. Someone needs to acquire new skills on regular basis. You can create a learning plan for new skills. Look for new skills in demand in your industry or your area of expertise to increase your value.

Having years of experience at doing something does not mean that is what people need or want. What people need is the value your experience brings to them. Your life experiences can either valuable or useless.

When you want to add value to yourself, you do not need to compare yourself with others because this can make you to loss fucus. You do not need to be bothered by what others are doing or for not being accepted by others. Always do best with what you have, regardless of the circumstances. You must purse a worthy dream and rejoice in your uniqueness.

Another way to become wealthy in life, as the time passes one needs to exploit his or her skill as a self-employed expert. A lot of wealthy people invest on how to acquire good skill that can be useful for their future investment. After the skill has been acquired and you display it in what you do, it makes you increase in finances to enable you purchase more assets that will make you wealthy in life. I quite understand that acquiring skill serves as an asset.

Wealthy people invest their small cash into both current and fixed assets. A little drop of water can make an ocean, this means that little cash count before the wealthy.

There is no time and financial waste in the portfolio of the wealthy people. The most popular investments are land, collectibles, and common stocks.

You can build your small cash on stocks that can easily be converted to cash. When you have more money, you can live more comfortably depending on your lifestyle. And you can even use the money to buy people food and build schools and houses for those who need them.

Taxable investments are really important for retirement plan. These are the common stocks provide over the long term better returns and the risk is reasonable. The advantages are that common stocks are very easy to buy and sell, there are many public companies issuing them. It is very easy to find reliable information on public companies. Investing in land and home (real estate and property) is worthy of attention.

You need to tax yourself on different ways either by saving money. Someone need to create a saving culture towards your investment because. A person is able to succeed only if the starts to have better outlook of environment and his situation. People should arguing that he or she does not have education and he is unable to run this business. Some are claiming that they were not born from a rich family or not in a right country. They argue that they v do not have right people around them and they are not smart. Being wealthy means to understand that you are educated and smart enough to earn money and run business.

Advantage of such investment is that morgage gives the opportunity to borrow against the property up to three times the value. In gold coins, or jewelry is an interesting task. It is not a risky investment, because it does not depend on the inflation rates in the country. Wealthy people is to stop the blame. People are always blaming the economy, the government, they are use to blame other people for their unsuccessful. They always give irrelevant excuses to justify their failure. When wealth is not properly managed, this can make some one to be unhappy in life but many people want to be wealthy, but they never have thought over it on the risk and responsibilities that comes with it.

They always take risk in term of investment wise and they portray good character, people watch them and use them as pace setter for others to follow. They lead for others to follow, these people are full of wisdom and they have hidden qualities of life. To becoming a wealthy person, this is not something that with little number of days or years people build on be wealthy, hard work and persistence is needed here. It is how you plan to manage your wealth that determines how wealthy you are. Someone who is wealthy have better chances to be successful in life.

Paying attention to your business environment and stop shifting to other people for your mistakes, gives you both solid foundations for future successful as they aims at changing human attitudes towards business and money.

When you create a plan and make sure that you follow it accordingly. Planning help in a way of achieving our goals and allow more efficient use of time and resources. It helps in deciding what is the next step of action as per our investment strategies.

Whenever, we adhere to follow the planning process, this gives soft landing to our investment strategies.

The wealthy invest in education and study regularly, the reward for persistence can give financial freedom. The financial education will be of help when negotiating the conflicts of interest regarding to investment advice. Financial education makes you demonstrate self-responsibility for your financial security.

As a wealthy person you to extra- ordinary careful as regards to the type of investment you venture into. So a wealthy person need to develop a patience attitude towards an investment analysis before they dabble into any business.

The education of the wealthy helps a lot in decision making. There is hear says, education is light and light is power. To be educated is not about going to university or college. The major aspect of this, is to be smart with whatever he or she is doing as regards to investment.

An investment is the motor that drives a wealthy person. So far all what we have been saying is the reflection of different investments. For example, we have made mention of real estate, stocks. Doors and opportunities are open to them, however not all of them become wealthy, as they do not appreciate what they have. One of the main characteristics of a wealthy person, in my opinion, is when you have respect for the work and efforts of others. If you can only respect the hard work of others, riches will turn to wealthiness and this can bring more successful in life.

To become wealthier, you must invest more in an essential commodity. These are business that people cannot do without. This type of business that people patronize you without appealing to them to buy your products. When you appreciate and know how to make and manage your wealth properly, this will form you to be wealthy. Money plus wealth can make you to be wealthy and there is nothing you could not do if you have them.

This is my pre-writing when I was trying to conjure a meaningful and concise essay for readers to take their time to digest the cogent points been listed in my essay titled “How do I become wealthy”?

How can someone be wealthy? this is a big question that troubles our mind everyday of our lives. I think people do not understand the real meaning of being wealthy. It goes beyond of having a lot of money, having exotic cars, by giving people money and spending money lavishly in the public. To some people they think being wealthy is the same as being rich, this is not too clear to a lot of us but to my own point of view is capital NO.

We have some people that want to become wealthy, and they were counting the number of money they have in their bank account. In any case, I think that a wealthy person is someone who knows actually understand what he wants from life and work towards meaningful direction. This is given only to those who are strong enough and brave enough to face all difficulties on their way, and who are able to work hard to

overcome them. There are many people who were born in rich families and who have everything, what they want are cars and expensive clothes.

The word wealth is commonly used to describe someone who has a lot of money and possessions. Someone is wealthy because he or she can choose to stop working and is still able to maintain his or her lifestyle. It is not the amount of money you have in your bank account that determines how wealthy you are.

I believe that to become wealthy is not an easy task and there are few steps we need to follow in order to get involved in the race. You must not rely on how big is your salary account, or on the size of your paycheck. Because being a salary earner, that cannot make you wealthy in life. When you are working for salary or wages you can never be wealthy because you are still serving as a slave under someone (employer). It can only take God's will or grace of God, for salary earner to be wealthy in this world.

Wealthy people always go for new things that add more to their values, they do not reject new ideas, in other hand, they do always try to understand different situations they find themselves. Moreover, wealthy people always create and engage themselves in new business and investment to be added to their initial investments.

Being wealthy is not only having enough money to meet your needs but it is being able to afford not to work if you do not want to work. It is about acquiring assets and making your money for yourself. Wealthy people do not necessarily own the latest material things or when you are spending money lavishly. The wealthy people always engage themselves in acquiring a lot of assets, such as real estate, stocks, investments and cash.

This is because rich people spend a lot of money, but wealthy people save and invest most of their money. Wealthy people might have a lot of money, but they do not spend it or throw it out any how for the public consumption. And they certainly do not use debt, unless it is for a very clear purpose, such as an investment on a house or property.

A wealthy person saves as much money as possible and invests it in assets. That might mean purchasing real estate and investing in stocks. Regardless of how they invest, wealthy people know that in order to grow their wealth, they need to turn their cash into assets.

There is a difference between being rich and wealthy. It is possible for someone who makes money less than a rich person to actually be wealthier than the rich person with the fancy car and latest fashion designs that he or she has acquired.

To be rich simply means to have a lot of money or income which boils down to how much cash you have in your bank account. But just because you are rich, does not mean you are wealthy.

Being rich and wealthy gives an excellent opportunity to influence lives and opinions of other people. Rich people are powerful and influential in the country's policy and economy. Being rich is not simply being able to buy everything you want and travel where ever you want. Being rich is ability to buy the way out of many troubles and worries, to escape from hard choices and to ensure better future for children and grandchildren.

When we speak of wealth, the images that come into most people's mind are big houses, expensive cars, and luxury items. Wealth is represented by money and the possessions. On the other hand, power is the ability to manifest our intentions, to change our environment, to require someone to do something to our desire, to have authority, and so on.
