Skylar Brown  
Nyack College  
60 West Bayview Avenue  
Englewood Cliffs, NJ 07632

Dear Ms., Mr. or Dr. \_\_\_\_\_,

I am writing in regards to applying for the position at your company, \_\_\_\_\_. I've heard of the opening through \_\_\_\_\_, I am interested in the job, because I have great experience and interest in producing Zoom-style concerts, including those on the Facebook pages of Nyack College School of Music NYC, Scripture Union Northeast Region, Angelos Mission Ensemble, and Fort Lee Gospel Church. I love music and technology, and the collision of both of them together creates beautiful art in a time where our world needs it the most.

I have a BA in both Piano Performance and Computer Science at Nyack College, and I've studied MySQL, Python, Advanced Web Languages (HTML, CSS, JS, PHP), and I've worked with professional data tools such as Talend, Tableau, VMWare Fusion and Workstation, GNS3, I've worked on forensic data recovery too, studying under Professor Paul Nevill, an IT expert, data guru and SME for Kings Supermarkets and Whole Foods, and leader in innovation and Business Intelligence Consultant at IBM. I am interested in data recovery, network infrastructure, and the ultra-wideband technologies that our world needs for low-latency software to livestream during these challenging times. I've also had the privilege to perform piano at Steinway Hall and Lincoln Center with Nyack College, studying the preludes and fugues of Volumes 1-2 of Bach's *Well-Tempered Clavier*, sonatas by Mozart and Prokofiev, ballades and etudes by Chopin, and the genius atonal jazz dances by Bartók under the tutelage of Dr. Tammy Lum. I am also in Nyack's chapel praise and worship team, and I edit Nyack College's Zoom-style concerts on programs such as Final Cut and Adobe Premier. I have 4 years of experience with ProTools, Digital Performer, and Logic, and I love creating music and video production as well.

My interest in applying for this position stems from the values I have to make the world a better place through the use of cutting-edge technology and music, both classical and contemporary. I look forward to hearing from you, and will provide you with my portfolio upon request.

Sincerely,

Skylar Brown.
