

NUR302 – Lesson 3

This week our focus will be on **“Key Concepts and Steps in Quantitative and Qualitative Research” (Chapter 3)**

Our Learning Objectives are:

1. Define new terms presented in the chapter and distinguish terms associated with quantitative and qualitative research
2. Distinguish experimental and nonexperimental research
3. Identify the three main disciplinary traditions for qualitative nursing research
4. Describe the flow and sequence of activities in quantitative and qualitative research and discuss why they differ

The Assignments for this week are:

1. **Readings:**
 - a. Devotional
 - b. Chapter 2 of the textbook
 - c. Use the power points as a summary for the chapter
2. **Videos:** Watch the assigned video(s)
3. **Quiz:** Complete Quiz 3
4. **Discussion:** Participate in the Discussion Board
