

Three successes in my entire life

First, I got married 5 years ago. I know everyone's getting married when they get old. However, my spouse is so special for me. Sometimes, he can be my advisor when I face with some obstacles. Most of the time, he is my best friend, because we spend a lot of time together.

Second, I am very lucky to have such great parents, because they always give me endless love and supports. Sometimes, it seems like one small thing, but it brings a big difference later on. I always respect them as a good life mentor. My second success is that I met my parents in my life.

Third, I am very lucky to be here in the united states and study English as a second language. Sometimes, people who live in our own country they never have a chance to meet native speakers and study with them. However, I always communicate with my professors from Nyack college and share my thoughts and ideas. It is a great opportunity to live this country and learn a different language, culture, and customs.
