## Quiz 1

**Explain two different reasons Descartes doubts what he thought he knew ?**

- He wanted to make sure he was certain because there were things he knew that later found out to not be true
- Doubting allowed him to find a method in finding true knowledge

**What is it that Descartes realizes he ultimately can't doubt ?**

Descartes ultimately realizes that he cannot doubt the belief that he himself exists.

**Why does Locke think that there is no innate knowledge?**

Locke believes that our knowledge of life is gained through experience. Almost like when people say older people are wiser and they know things through experience.
