

Nakia Gordon and Kathleen Petgrave Presentation Questions

Are you going to start a new project or continue a previous project?

We will be continuing a previous project from our research class. The project will focus on how to manage stress and the element of housing in the New York City Shelter system.

What is your research question/area of interest?

How can clients reduce stress and gain access to more housing opportunities while in shelter?

What method (Quantitative, Qualitative, Mixed, Systematic Review, Single-Subject Design, Project-Based, etc.) will you use? Be as specific as Possible?

Mixed (Quantitative and Qualitative).

What will your data collection Tool (Survey, Interview Protocol, Standardized Scale, Etc.) and sampling (Contingence, Purposive, Etc), If Appropriate?

We will be interviewing clients to gain data.

What will you need most from me?

Dr. Moon, we will need your time, patience and support.
