

I am Peter Brown. I reside in East Flatbush, Brooklyn New York. I was born on the island of Trinidad, one of the twin island nations of Trinidad and Tobago, in the Caribbean. I immigrated to the United States in August 1974. I am a retired New York City Public High School mathematics teacher who was enjoying my retirement until I registered for the MABS degree program and looked at the syllabi.

I am married and have three adult children and two granddaughters. I enjoy long distance driving hence, I have driven to Florida at least ten times. However, due to COVID 19, on my last journey, I drove straight without stopping overnight. I am also a student of the martial arts.

I believe the MABS will enhance my knowledge and understanding of the word of God. The MABS will also help me to encourage, motivate, equip and challenge believers to more effectively take the Gospel message to this dying world.
