

Marie Roseline Sanon  
Immersion Project Proposal

I would like to be educated on the Jewish culture group and spend time with them in their synagogue. I selected this group because I feel that they see us different.

I selected this group because I feel that some of the Jewish people see us differently. It makes me uncomfortable to be around others that give me strange and awkward stares.

My current perception about the Jews is that I know them as God's chosen people and that they are favored by God. My fear is that I might be treated as inferior but I'm confident that I will benefit from it.

I'm going to do it in person, through my Jewish co-worker, Jen, who will be taking me to the Synagogue as of right now. If anything changes, it will be online.
