

## Nyack Heritage

Hello professor, God Bless You. I am Rudy Lopez. I am currently in my junior year of college. I commute from Long Island, but initially my family is from Peru. I am studying Business Administration and also a student athlete here in Nyack College, playing football (soccer). I would say Jesus, is a huge part of my life since I converted around almost 4 years ago. He is the one that has given his strength when I need it, his shoulder when I needed to cry, and most notice now a days his hand to guide me on the path he is showing me. Step by step. My dream of doing in my life is doing what I like but without God's will, I wouldn't want it, so I'm leaving it all to my Lord, to be honest. I person I admire most of the example that my parents have given me throughout the years. Just their very own example by watching them, it has been a blessing and I'm sure it will continue to be like that.
