Write about something I have experienced recently

What a mighty God I serve, God is an awesome God, He is the same yesterday, to day and forever! I have experienced him as Jehovah Rapha when I needed healing. When I was in need, I saw him as Jehovah Jireh, and when I needed help right away, I saw him as Jehovah Ezer.

I have experienced him as Jehovah Rapha during the last week of December 2022, when I coughed and thought it was just a common cold, then my mom complained about her throat hurting she had a cold too and we both decided to take the home covid test and the results were positive. We both went to a medical institution and the results were the same. Our symptoms did not change , we had no other symptoms and our symptoms did not get worst but we got better and no one else in our home contracted it and within five days we were healed. I retested and it was negative.

I have experienced Him as Jehovah Jireh, He provides. I have an event coming up in October and I needed some money and for christmas I got the amount as a monetary gift. Which I was very happy for.

I have experienced Him as Jehovah Ezer last saturday. I needed some help and answers from someone at the university because I seem to be going around in circles. Earlier in the morning in devotion I prayed and had a talk with God. Now saturday is not a working day and monday a holiday. Earlier in the afternoon when i checked my email saw a response was sent since 8am and help was there, I got through with all i needed.
