Subject: Introduction to the Class

Hello Class,

My name is Marco Dasso, and I am an international student/athlete from Argentina. This is my second semester of my Sophomore year while I am pursuing my Business Administration major. I joined Alliance University in August 2021 and have been very comfortable here since then. I hope this is a great year for us all and that we get the most out of this class.

I have been involved in groups for as long as I can remember. I always joined different types of activities or sports which were in groups. I consider myself to be a bit of both, leader and follower, because I do have skills from either of them and can put myself in any of these two roles. Working in groups has different aspects which I like and some that I don't. On the one hand we can get different attitudes, skills and opinions which make a group very rich. On the other hand, handling many people with different ways of thinking and agreeing and disagreeing all the time may cause trouble.

I see myself as a very organized person, therefore, if I am in a group I will need the group to be organized, otherwise, I won't be able to help much because I will feel lost and unable to understand what is going on. I believe it is easier, not only for me but for everyone, that we have everything written down so that we know who does what and in which order. About due dates, I feel it is the same, I work well and fast under pressure but if we can do it with time it might be better because we can do it at our own pace.

I feel that my skills for a group could be my organization, my eagerness to work and my capability to write. My ideas are not often very authentic but they can help others. I have a broad general knowledge so I can help a bit with everything. Mostly in sports.

I hope to learn how to communicate with my co-workers, be able to manage a team and make myself clear every time I want to express myself or share ideas. This course is important for me and for my major, without it, my future courses will be more difficult.

Regards,
Marco.
