Introduction of Self

My name is Valeesa Johnson.

I am studying Social Work with a minor in Pastoral Ministry.

Jesus is and has been everything to me.

I dream of one day having a multipurpose center that helps people regardless of where they come from. I would like to offer services such as employment, clothing, counseling, housing, food pantry, etc. Anything that is needed to make their life better and more productive.

The one person I admire in life is my mother. She carried herself in a way that earned her so much respect wherever she went. She would never show her anger or hurt and treated everyone with so much dignity and respect. She was the sweetest person who never said anything bad about anyone. Most of all I admired her love for her family, God, and people. She taught me all about what it meant to have a close relationship with God.
