### 4. What do you dream of doing with your life?

The most current dream is to make a career in psychology and be able to help people. I feel like it's something I can be good at. I love people and want to understand them.

### 5. Who is one person you admire in life and why?

I admire my parents and their strength that's why I cannot say that I admire one person. My parents were born in the same hospital one day apart and are still going through life together. They faced a lot together but were able to overcome everything. I look at them and see true love and a marriage that was blessed. I always wanted something like this for myself but at certain age I realized that it's not that easy. I admire my parents for what they are together, and love them so much...
