Who Are You

1. My name is Savanna Sebastian and I am a 20 year old junior in college. I transferred to Alliance just last semester to come to the program here.
2. I am currently in the nursing program at Alliance University.
3. Jesus to me is the person I know I can always go to and talk about anything and everything to know there is not an ounce of judgment. Any hardships, difficulties, and even success he knows about it.
4. My dream in life is to be successful in my nursing career to be able to live my life to the fullest all while still being able to give to those who are in need.
5. One person I admire in my life is my dad. He immigrated to America after marrying my mom and he left his family behind to create a new one in a completely different country and not even knowing the language. He works so hard to be able to give his daughters a life he was not able to have and I truly admire his work.
