Reading Leadership Questions

1. According to the Psychiatric Rehabilitation Journal, the results of the literature search of 228 references found only 25 articles included in the results. If the evidence support CHIME's idea that clients with SMI have a good life based on the process recovery-oriented practice ROP and not the outcome; how does one determine the validity of the research?
2. Why is mental health so difficult to define?
3. The World Health Organization's WHO definition of mental health differs from the current definitions and has created controversies. Who determines the proper definition of mental health and why?
