Programming ll

1/30/23

TicTacToe Clickable Game-

This Python Program will perform the function of the game Tic Tac Toe, player one will be X, and player Two will be O. The way to win this game is to get Three Xs/Os across the board, vertically, horizontally, or diagonally.

Clickable Calculator-

This Python program will perform the function of a calculator, imitating the calculator we all use in google. Addition, Subtraction, Division, Multiplication, Exponential Operations, Square Roots, Logarithms, Trigonometric Functions, and Hyperbolic Functions.

Translator-

This python program will perform the function of a translator for languages such as Spanish, French, Dutch, Mandarin, and Haitian Creole,
