

**Alliance University  
Newborn Assessment**

Student Name Jennifer Diggs Date of care 1/27/2023 Infant initial     Gender M

Date & time of birth <sup>1/26</sup> 19:59 Type of delivery C-section

Complications/ resuscitation measures maternal gestational diabetes

Apgar 9/9 Blood type B+ Coombs (-) TCB/ bili levels                   

Newborn screening:  yes  no      Hearing screen:  yes  no      results:                   

**Medications**

Medication name	Dose/ Route/Frequency	Use/Action
<u>dextrose 40% oral gel</u>	<u>2.5ml/oral/every hr</u>	<u>for low blood sugar</u>
<u>erythromycin (0.5%)</u>	<u>5mg/gram/ophthalmic ointment</u>	<u>prophylactic eye ointment</u>
<u>hep B vaccine</u>	<u>0.5ml/injection/1dose</u>	<u>immunization</u>
<u>phytonadine (vit K1)</u>	<u>1mg/1ml inj/1dose</u>	

**Assessment**

Vital Signs: Temp 97.8 Pulse 119 Resp 49 BP            O<sub>2</sub> sat             
 Weight 4.59 kg Birth weight 99% % change             
 Length 20.5' Head 37.5 cm Chest 36 cm  
LGA

**Skin**

Turgor:  good  poor      Condition:  smooth  dry, cracked  peeling  
 Color:  pink  ruddy  pale  cyanotic  acrocyanosis  
 jaundice: Location                    Type                     
 TCB                     
 Variations: (rashes, lesions, birthmarks etc)                   

**Head & Neck**

Shape:  normocephalic  other:                     
 Fontanelles: Anterior:  flat  bulging  sunken/depressed  
                   Posterior:  flat  bulging  sunken/depressed  
 Sutures:  open  closed  overriding  
 Variation:  molding  caput succedaneum  cephalhematoma  
 Facial:  symmetrical  non-symmetrical:                     
 Eyes (symmetry, conjunctiva, sciera, eyelids, PERL):  normal  abnormal  
 Ears (shape, position, auditory, auditory response):  normal  abnormal  
 Nose (patency):  normal  abnormal  
 Mouth (lip, mucous membranes, tongue, palate):  normal  abnormal

Neck (ROM, symmetry):  normal  abnormal

**Chest- Respiratory/ Cardiovascular**

Appearance (shape, breasts, nipples): round, budding

Breath sounds:  clear  adventitious

Heart sounds:  S<sub>1</sub>, S<sub>2</sub>  murmurs: \_\_\_\_\_

S/S of respiratory distress  yes: grunting, flaring  no

Clavicles:  normal  abnormal

Brachial/femoral pulse (compare strength, equality):  normal  abnormal

**Abdomen**

Appearance (shape, size):  normal  abnormal

Umbilical cord condition: drying out nicely

Bowel sounds: BS:  normoactive  hypoactive  absent

Date/Time of Last BM: 9:25 am 1/27 How many BM in last 24hrs: \_\_\_\_\_

Describe BM during shift \_\_\_\_\_

**Genitalia**

Male (circumcision, urethral meatus, scrotum, testes): circumcision <sup>dropped</sup>

Female (labia majora/minora, pseudomenstruation, vaginal tag, discharge): \_\_\_\_\_

Circumcision:  yes  no

Femoral pulses:  normal  abnormal

Urine output:  Number of output in last 24hrs: 1 @ 9:30 am

Anal patency:  normal  abnormal \_\_\_\_\_

**Musculoskeletal**

Posture:  upper and lower flexed  partially flexed  extended

ROM all extremities:  normal  abnormal

extra digits: • upper extremities flexed  
• lower extremities extended

**Neurological Reflexes**  
(normal: positive, symmetrical)  
(abnormal: absent, weak, assymetrical)

Blink:  normal  abnormal

Moro:  normal  abnormal

Grasp:  normal  abnormal

Tonic neck:  normal  abnormal

Sneeze:  normal  abnormal

Rooting:  normal  abnormal

Suck:  normal  abnormal

Swallow:  normal  abnormal

Gag reflex:  normal  abnormal

Stepping:  normal  abnormal

Babinski:  normal  abnormal

Notes \_\_\_\_\_

**Behavior (Sleep/Activity Pattern 24hrs)**

Sleep/ wake patterns:  normal  abnormal

Consolability:  normal  abnormal

lethargic, complication of ↓ blood sugar

**Nutrition**

Breast Milk: frequency N/A Positioning:  correct  incorrect Latch:  correct  incorrect Audible swallow:  yes  no Expressed breast milk in bottle:  yes  no

Notes: mother verbalized wanting to breastfeed

Formula: Similac Advance

Type: \_\_\_\_\_

frequency: irregular

Amount: 1.5 oz

Satiation:  yes  no

Regurgitation:  yes  no (frequent)

Pacifier use:  yes  no

Stool (number per day, color, consistency) 1 dirty diaper / 4 hrs

Urine output (number per day/ color) 2 wet diapers / 4 hrs

**Bonding**

Describe interaction between mother and infant

Did not see! The baby was taken to the NICU in the late morning.

Client Education Topic	Patient verbalize or demonstrate understanding or needs reinforcement	Additional information
<u>Educating the mother to feed baby every 2-3 hrs.</u>	<u>Patient stated she would put baby on the breast or pump every 2 hrs.</u>	<u>Patient understands she needs to pump for 20-30 mins each breast.</u>
