It was awesome to hear and see how the spirit was working in students and the fire then still had coming back to school excited to implement and share with friends</p> <p>SGL group meetings: We talked about asking people to become apprentices and how to mentor those apprentices. The current SGL had an idea of how to do this because that is how they became SGL but some did not. It is good to have this group meeting so they can hear different experiences and encourage each other</p> <p>Prayer meetings: There was a renewed focused after the winter conference. Some/more students were refreshed and desired to see the spirit move their lives and those of friends</p> <p>NSF training: Good, one challenge I was convicted to take on was sharing life with students. I did not do that well the fall semester. Modeling what we teach and showing or being vulnerable with them as they are with me seem genuine and real.</p>

MEETING(S) WITH MENTOR(S) TOPICS OF DISCUSSION REFLECTIONS
--

Meeting on 1/11/2023

Most of this meeting was spent on winter conference prep, manuscript study, theology break out and conference book table. We briefly talked about next step with the student vision team. Every meeting we set up to talk through current project and if there are any barriers or things I need assistance or decisions on. We discussed plan for Urbana conference debriefs and a chance for mentorship by observing Hans in one on ones with students.

Meeting on 1/25/2023

We took some time processing personal spiritual experience at winter conference (1/20-22/2023). We also talked briefly thought a draft Internship contract for SF 603 with goal to discuss in detail at next meeting the following week. Discussed recent new semester outreach and how it could be done next year. I (intern) discussed current status and challenges of discipling small group leaders, and other one on one meetings.

More so now than in the last few months, I made realization that I know what I need and if I do not communicate that with supervisor or mentor there is no way to get help needed to overcome barriers. This means both physical and spiritual.
