

For my shift on Thursday, I learned more on hand about what I'm going to be doing this semester. Mr. Hickey was telling me how I need to know what I'm going to be talking about on my podcast weekly and that I need a music playlist in between my segments. I also saw how to work the microphones for when I'm on air. Mr. Hickey interviewed me on the WNYK radio in which we just got to learn a little bit about me. I'll be talking about sports, fashion, and music on my segments because these are things I can say I'm most involved in. I'm really looking forward to the internship!
